Connally Calls for Big Three Parley To Nip World Conflict

By The Associated Press

WASHINGTON, March 12—Senator Connally (D-Tex) called today for a new Big Three meeting to discuss "in language clear and plain and if need be, blunt," issues he said otherwise may blaze into world friction.

The chairman of the senate foreign relations committee sounded an optimistic note on future relations with Russia—provided they are based on such plain speaking.

But he told his colleagues in a prepared address that Russia must understand that while she has the unchallenged right to maintain any form of government she wants, "these rights do not extend beyond her boundaries."

SGT. EARL K. CASTNER

Earl K. Castner Declared Dead

Marion Sergeant Reported Lost in B-24 Bomber on Raid Over Truk.

Mr. and Mrs. Paul Castner of 701 South Prospect street received word yesterday from the war department that their son, Staff Sgt. Earl K. Castner, 30, reported missing since June 18, 1944, has now been officially declared dead. The war department set the official date of his death as March 6, 1946.

A graduate of Harding High school, he was first engineer on a B-24 which failed to return from a bombing mission over Truk island June 18, 1944.

Prior to entering service in September, 1942, he was employed here at a Woolworth store and as a district manager with the Shell Oil Co. in California. He was inducted from California where his wife, Mrs. Marian Castner, is a school teacher.

His last furlough home was in December, 1943, when he spent 15 days with his parents before shipping overseas April 4, 1944.

He is survived by his parents, his wife and three brothers, John P. Castner of Columbus, Joseph E. Castner of 315 Blaine avenue, Robert E. Castner of 545 Courtland avenue and one sister, Miss Dorothy E. Castner of 701 South Prospect street.

Calls for Power

Connally called for maintenance by this country of "an adequate army, a superior navy and a superlative air force."

Pinning his hopes on the United Nations, the Texas senator said that so long as Russia, Great Britain and the United States "remain loyal to the obligations of the charter and adjust differences as they arise, there will be peace."

Expressing the belief that the Soviet Union does not want war, Connally said he believes mutual understanding and cooperation with Russia "are not insuperable."

Connally's speech, which he said he discussed briefly in advance with Secretary of State Byrnes, carried on the newly-instituted policy of plain-speaking about Russo-American relations to which Byrnes and Senator Vandenberg (R-Mich) recently lent their voices.

It is time, the Texan said, for a new meeting between President Truman, Prime Minister Attlee and Generalissimo Stalin. He said the Big Five foreign ministers ought to meet frequently, too.

Expresses Hope

Urging that all nations await the settlement in forthcoming peace treaties of boundaries, reparations and the status of governments, Connally expressed hope "that Russia will not permit her new found power to blind her to the necessity of recognizing and respecting the rights of other nations."

As for the United States, Connally said "Let us say to Russia, we want your friendship. We want to cooperate. We shared your comradeship in the bloody chapters of the most tremendous war in all times. We want your comradeship in the peace. Our countries have been traditional friends. Let that traditional friendship be cemented and strengthened and buttressed by mutual labors in behalf of world peace."

RUSSIAN PRESS GIVES U. S. PAT, CHURCHILL RAP

Comments on Long Friendship with America in Renewing Blast on Briton.

By The Associated Press

LONDON, March 12—The Russian press printed today its second strong attack on Winston Churchill in two days and at the same time commented on the "traditional friendly nature" of Russian-American relations.

The former British prime minister's speech at Fulton, Mo., last week calling for a virtual British-American military alliance was "marked by an ardor which hitherto no one has achieved since the death of Dr. Goebbels," asserted an article in Izvestia, the official organ of the Soviet government.

"First Place for U. S."

"In the future struggle which Churchill tries to fan with all his strength, he clearly reserves first place for America and not for England," said the article, quoted by Moscow radio.

"Consequently the ideal situation which he must imagine is as follows: the Soviet Union will without fail wrong England somewhere, and then the transAtlantic brothers will boil up with indignation and rush to the rescue."

After commenting on exchanges of Russian and American literary culture, the article criticised "reactionary circles" in the United States for "inducing the government to take part in supporting intervention against the young Soviet republic."

Also Hit Hoover

It also criticized former President Herbert Hoover for allegedly telling Japan in 1931 "that if her expansion spread north of Manchuria the government of the United States would not be opposed to it."

"However," Izvestia continued, "progressive forces won the upper hand over reaction, and for many years now Russo-American relations have again been acquiring their traditional friendly nature. The last world war and the common struggle against a

UMW CHIEFTAIN KEEPS SILENT ON PROPOSALS

Coal Negotiations Take Over Labor News Spotlight; GM Appears Quiet.

By The Associated Press

A national bituminous wage conference, requested by John L. Lewis for presentation of post-war wage demands, convened today at Washington.

Ezra Van Horn of Cleveland, chairman of the bituminous operators negotiating committee, was nominated by Lewis to be permanent conference chairman.

Lewis, president of the AFL United Mine Workers, described Van Horn as having served through the years "with distinction and eminent fairness to the joint contracting parties."

The conference heard immediately Lewis' notice, under provisions of the contract, of intention to terminate the present agreement April 1.

The conference did not hear at once Lewis' demands on the operators, but proceeded with electing officers and hearing reports from the credentials and procedures committees.

Charles O'Neill, the operators' chairman in the actual negotiations, nominated United Mine Workers' Secretary - Treasurer Thomas Kennedy for conference secretary, with Joseph Ardigo, Williamson, W. Va., an official of the Southern Coal Operators association, assistant secretary, and John T. Jones, UMW official, secretary pro tempore.

Lewis kept secret just what wage and other demands he has for the mine owners.

The operators, although in the dark as to just what wage and other demands Lewis was ready to submit, were quite sure he would demand a shorter work week, more pay to make up the loss in take-home earnings, the unionization of supervisory workers and a "participation" royalty on each ton of coal mined.

All Calm at GM

In the other major labor negotiations, all appeared calm in the ranks of the CIO United Auto Workers in Detroit as conferences continued in the 112-day General Motors strike and parts of the union's contract with the Ford Motor Co. faced possible changes.

UAW-CIO President R. J. Thomas and Vice-President Walter P. Reuther did not comment on reports that the "Reuther-for-President" drive appeared gaining headway among UAW-CIO locals, but both declared they were "unanimous in all action now being taken to negotiate a strike settlement."

As the GM negotiations continued, with no report on yesterday's discussions, the union's national Ford council announced its objection to certain clauses dealing with productivity and other issues in the contract with Ford.

The contract, signed last month, is to go directly to the union membership for ratification or rejection, a union spokesman said, as the council has no formal power to decide acceptability of the pact, which provided for an 18-cent hourly wage increase.

Rail Probe Opens

In Chicago, a three-man presidential fact-finding board was to open hearings on the wages and rules dispute between two railroad operating unions and most of the nation's rail lines. A strike by the 293,000 members of the Brotherhoods of Railroad Trainmen and Locomotive Engineers, which was set to start March 11, was postponed for at least 30 days after President Truman named the emergency board.

Also in Chicago, Reid Robinson, president of the CIO Mine, Mill and Smelter Workers, said strikes would be called next Monday at four Phelps Dodge properties in Arizona, New Mexico and one in Los Angeles unless wage

UAW RAPS PLAN TO HIKE CARS

Charges Proposal To Boost Prices Is "Explosion" in U. S. Cost Line.

By The Associated Press

WASHINGTON, March 12—A CIO-United Auto Workers official blasted today at OPA's plans for new-car price increases, saying this means "not a bulge in the price line but an explosion."

"If OPA," said Donald Montgomery, UAW consumer counsel, "plans to give price increases to the auto industry, then they'll be dishing them out by the bucket."

OPA yesterday announced that higher prices are on the way for Chrysler, Ford and Hudson cars. These companies applied for increases to offset pay boosts granted under the administration's wage-price formula.

Milk, butter and gasoline also are on the list of items on which pressure is being applied to OPA for higher prices.

Until the new car prices are announced for the three firms, they and their dealers must continue to sell cars at current ceilings, but they can require an agreement that customers will pay the increase when it is put into effect.

An OPA official estimated that the price hike for manufacturers probably will not exceed three per cent (or $45 on a $1,500 model).

He predicted dealers might be required to absorb part.

Montgomery said that "of all industries, the auto industry is least entitled to price increases."

He said OPA apparently was ignoring a policy provision which requires OPA to take into account an industry's prospects for increased production and lower costs.

The stabilization formula requires a level of prices which matches 1936-39 profits.

An OPA official asserted the wage-price formula excludes industries operating at temporary low volume from price increases as large as other industries may receive. He said this provision would apply in the case of the auto companies.

Profit Shown By Shovel Co.

1945 Earnings $284,394; Seek To Change Name of Company.

The annual report of the Marion Steam Shovel Co., issued today, shows net profits for 1945 after all taxes, amounting to $284,394, as compared with $482,970 for 1944. E. G. Diefenbach, chairman of the board, reported to stockholders that although the company has a substantial backlog of orders, production has been hampered by a strike of the Steelworkers' Union.

The accompanying notification to stockholders of the annual meeting to be held April 1 in Marion, O., enclosed a proxy statement on the company's loan plans. The balance of its public debt was retired in 1945 with proceeds of a two-year $1,000,000 bank loan. The proxy statement requests that present restrictions of two years on bank loans be removed to permit bank loans up to 10 years. The proposed amendment would permit the conversion of this loan into a long-term bank loan, releasing funds for the rehabilitation of the plant without impairing the company's current position.

Common stockholders are asked to approve an increase in the authorized common shares from 100,000 to 400,000 shares.

The stockholders also are asked to approve a change in the company's name to "Marion Power Shovel Co." The letter to stockholders says, "The word 'Steam' in the company's name has become obsolete. Shovels now are seldom powered by steam but rather are powered by gasoline or diesel engines or electric motors. This modernization of product makes the present name inappropriate."

WORLD BANK'S DEADLINE DUE

Russia and Others Shying from New Group May Be Penalized by Delay.

By The Associated Press

SAVANNAH, March 12—Russia and other Bretton Woods signatories who have been dilatory about entering the world bank and fund may be granted only six months in which to join the global lending and currency stabilizing agencies.

Secretary of the Treasury Fred M. Vinson, chairman of the boards of governors of the twin institutions, told a reporter that the membership committee of the international monetary conference on Wilmington Island near here probably would set such a deadline.

Would Be New Applicants

After that time, even countries which signed the 1944 agreements creating the $9,100,000,000 bank and $8,800,000 fund, would have to seek admission as new applicants.

This would subject them to entry on terms and conditions imposed by the governing boards, in which the present "big five"—the U. S., Britain, China, France and India—dominate the voting.

The late-comers also would be subject to a re-fixing of their quotas of gold and currency to be subscribed to the bank and fund.

Panama's action in ratifying the Bretton Woods pact, announced last night, was welcomed by the delegates of 35 nations who are working to launch the fund and bank.

Vinson said Nicaragua and El Salvador were expected to ratify shortly.

Australia has hesitated to ratify until Russia does, officials in that Russia's hidden gold reserves might upset the liberalized trading arrangements planned unless the Soviet cooperates.

Russia sat among the eight onlooker nations, at a separate table.

Yugoslavia, although a member, so far has failed to turn up. Delegates wondered if she had decided not to participate at all, thus following the Russian line.

The battle over a permanent home for the twin agencies gave promise of waxing hotter. A British spokesman said "we have only begun to fight" for New York, as against the U. S. delegation's preference, Washington.

Marionite Wounded 3 Times in War Is Hurt in Peace Job

Donald Richard "Dick" Wilson, suffered a badly mangled left hand at an industrial plant in Cleveland last Wednesday. He is in Lakeview hospital in Cleveland. His parents, Mr. and Mrs. George Wilson, live at 518 North Prospect street.

A discharged paratrooper, he went to work for a new plant in Cleveland about three weeks ago, one of the first hired. The establishment makes parts for metal furniture.

The first two fingers of his left hand were most seriously injured, the second finger alone having required 18 stitches. The hand is in a cast and the attending physician held out good hope that amputation will not be necessary, the family reported.

A private with the 504th Airborne division, Wilson suffered slight wounds twice in action at the Anzio beachhead in Italy early in 1944, and he was wounded a third time in action in Holland in September that year. He returned to this country last September.

BOY, 7, KILLED ON WYANDOT CO. ROAD

Hit by Cousin's Car When Sun Blinds Driver.

Special to The Star

SYCAMORE, March 12—Charles Earl Barton, 7-year-old son of Mr. and Mrs. Charles Barton of west of Belle Vernon on State Route 67, died in a hospital at Tiffin about 4 a. m. today. He was struck by an automobile driven by his cousin about 5:30 last night a short distance from his home. The driver of the car, Paul Dillon of Upper Sandusky, son-in-law of Mr. and Mrs. Merle Hufford, uncle and aunt of the child, said the sun blinded him and he did not see the child in the road. The boy had started out for the home of his uncle and aunt, a short distance from his own home, and it is thought he recognized Dillon and stepped into the path of the car to stop him so that he could ride on the Hufford home with him. Mrs. Hufford is a sister of Mr. Barton.

Born in Mansfield, Charles Earl was a son of Charles and Jane VanGundia Barton, and was a pupil in the Sycamore school where he was known to his classmates as "Jed." Surviving besides his parents, is a sister, Elizabeth.

Private funeral services will be held at the Barton home Wednesday at 4 p. m. Rev. S. M. Firestone will officiate and burial will be in Pleasant View cemetery at Sycamore. Friends may call at the home until 2 p. m.

CONGRESS JUGGLES RENT BOOST PLEA

By The Associated Press

WASHINGTON, March 12 — Congress, allergic to election-year hot potatoes, juggled a request today for a mandatory 15 per cent hike in the general rent level of residential property throughout the nation.

The recommendation was presented to the house banking committee by representatives of rental property owners who argued that such a boost is essential in justice to the property owners.

They urged that provision for a compulsory increase be written into pending legislation to continue OPA price controls for another year after June 30.

A spot check of committee members indicated coolness to any such blanket increase, which obviously would affect a host of rent-paying voters.

In addition to the touchy election-year aspects of the proposal, it also involved the consideration that the increase would mean higher expenses for members of congress who rent homes

(Turn to RENTS, Page 8)

MAN FOUND INJURED IN CENTER STREET

Harry Zieg Taken to Hospital; Mishap Unexplained.

Harry Zeig, about 65, of 471 East Center street was suffering cerebral concussion, lacerations and abrasions of his face and hands when he was found unconscious after midnight last night at the corner of Vine and Center streets in front of the Edwin K. Smith Home for funerals. A passerby found him lying in the street and notified Mr. Smith who took him to City hospital in an ambulance.

There were apparently no witnesses to what happened, and it is not known if Mr. Zeig suffered a dizzy spell or if he tripped and fell, or if he might have been knocked to the ground. He regained consciousness [illegible] the hospital, but could not recall what had happened.

He was walking [illegible] downtown section [illegible] just happened to [illegible] The date [illegible] cuts and [illegible]

Train Drags Auto 100 Yards; Driver Only Slightly Hurt

Arthur L. Davis, 37, of Marengo is in City hospital suffering from minor cuts and bruises after a near-miraculous escape from serious injury last night when he was dragged in his car from the American Express Co. office at the Union Station to a point 100 yards east of the Leader street bridge by a New York Central eastbound freight.

Davis had for some reason driven his car up onto the loading ramp at the Express office and apparently driven it off the ramp onto the railway track, a drop of two feet, just in front of the freight train. Police knew no reason for his being on the ramp.

Trainmen of the double-engined freight did not realize they had struck Davis' car and were carrying it with them at first. Patrolman Lew W. Shedaker discovered it when in making his rounds about 9 p. m. near the Leader street bridge he saw the train now on the east track on the south side of the bridge as it crossed over [illegible]

SELL-OUT CROWD SEES 19 OPENING GOLDEN GLOVES BOUTS

Amateurs Stage Fast Show Before 800 Fans at Armory

Next Round of District AAU Event Set for Wednesday Night; Tickets Already Scarce.

By ART MYERS

A sell-out crowd of 800 at the armory saw 19 bang-up fights at the opening night of the Golden Gloves A. A. U. district tournament last night. The young fighters combined the exuberance of amateurs with a good deal of ring know-how to give one of the finest nights of amateur boxing seen in Marion in many a day.

The bouts were a sell-out almost before the first fight went on, and when the crowd reached the 800 mark, police stopped the sale of tickets for safety's sake. Almost 100 people were turned away, according to officials of the Y's Men's Service Club, which is sponsoring the tournament.

The fights were started promptly at 8 p. m. and were run off swiftly and smoothly, without a minute's loss of time between bouts. Including two intermissions, the crowd was on its way home by 11:30, a tribute to the sponsors' organizing ability.

Expect Same for Future

According to Y's Men's Club officials, the house is already one-third sold out for Wednesday's semi-finals and Friday night's finals, and after the reception given last night's fighting, it should be hard to get into the armory those nights. Fights start at 8 p. m. both Wednesday and Friday.

The bouts were excellently handled by referees Dr. A. J. Wagner, Jimmy Williams and Ike Jones. Jones did turns at judging also, teaming with John Lewis and R. G. Smallwood. Judging was done in accordance with A. A. U. rules for amateur boxing, emphasis being on points. Points are given for blows blocked and feints which cause an opponent to miss, putting the emphasis on boxing rather than indiscriminate slugging. Russ Wilhelm and Marion Hinklin took turns at the announcing chores.

All the bouts were good, the fighters were more than willing and there was absolutely no stalling. One of the most spectacular bouts was between Leland Strahm of Carey and Jack Williams of Galion, in the middleweight class. Strahm, an experienced and tough fighter, knocked Williams very cold in about one minute. He knocked Williams down for a short count at about the 30 second mark. Williams got up groggy to be met shortly afterward with a terrific right which put him out for long past the required 10 seconds. Strahm should be a very hard man to beat, for he showed plenty of defensive skill in a brief offensive flurry offered by Williams at the start of the bout.

Marionite Gets Nod

A Marion boy, Ernest Arcuri, took a nice fight from James Wood of Delaware in the middleweight class. Arcuri was outweighed by 11 pounds but forced the fight from the very beginning. They went at it in fine style for three rounds, but Arcuri had more snap in his punches and landed much more often to take a clean cut decision. Wood was tired at the end. The crowd gave the fighters a big hand.

George Miller of Marion, last year's winner in the 118 pound class, came a cropper when he ran into Lawrence Strahm, of the fighting Carey Strahms in a fight at 118 pounds. Both good and experienced boxers, they started fast and looked good, showing plenty of training and knowledge of what goes on inside a boxing ring. In the second round there was plenty of action, Miller taking it a bit easier than Strahm and seeming to have the situation pretty well under control. But in the last round Strahm made it his fight, forcing the action and tieing Miller up beautifully. Miller was still in the fight and even pushed Strahm through the ropes at one point, but it was Strahm's round and it was close enough up to then to make it his fight.

Jack Draper of Marion, last year's lightweight champion, scored a handy win over James Garns of Shelby in the welterweight class. Action started with

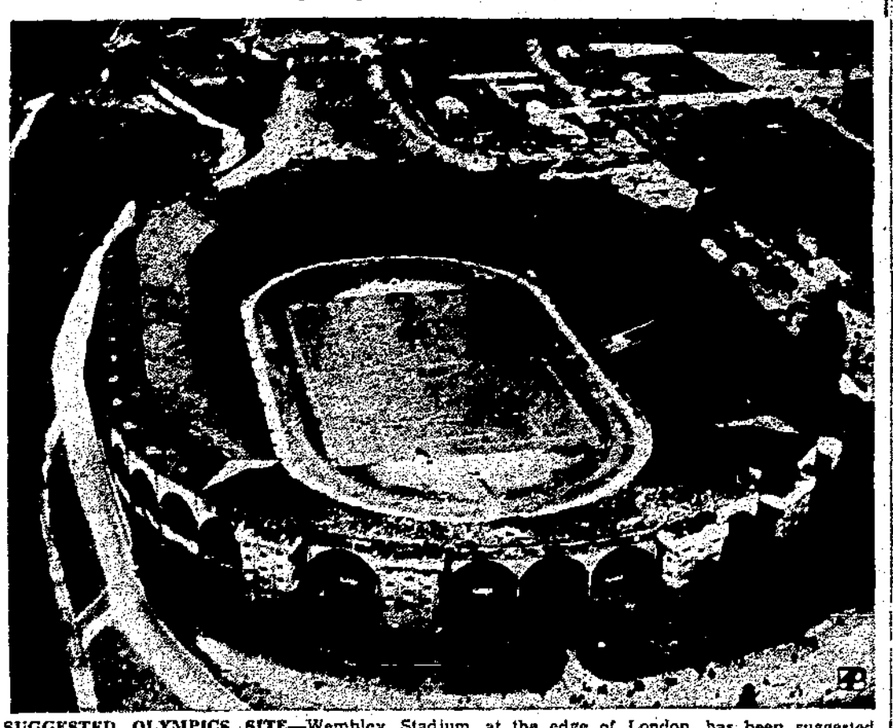
London Has Olympics but No Room for Stars



SUGGESTED OLYMPICS SITE—Wembley Stadium, at the edge of London, has been suggested as a site for the revival of the Olympic games in the British capital in 1948.

Associated Press Newsfeatures

LONDON — Olympic games will be in London, two years from now, but the British Olympic association doesn't yet know where they will be held. Lord Burghley, the chairman, and his colleagues will have to make up their minds very quickly.

Without a doubt Wembley Stadium will have a big share of the proceedings. But as it hasn't a running track it's more than likely that the old White City Stadium, scene of the 1908 games, will be brought into use again.

Organizing Olympic games and housing athletes are tremendous tasks, and as all building in Britain now, and for many years to come, is laid down to supply people with homes lost in air raids, it will be impossible to build an "Olympic village" as they did in Berlin to keep all the athletes together.

It seems more than likely that competitors will be spread over London, that is if there is any room in hotels.

Wembley, within 12 minutes of London's West End, scene of England's Cup Finals and international soccer matches, would be an ideal spot for the ceremonial opening. Swimming and football events could be staged there, and the men behind this money-making stadium—they stage dog racing and ice hockey there too—have already voiced their willingness to cooperate with the British Olympic Association on the track question.

Wembley's capacity crowd for football is 94,000, and for indoor sports they can take up to 15,000 around the ice hockey rink and swimming pool.

White City will need some renovation, as it is situated in a spot that had quite a large dose of Luftwaffe bombs in the first blitz of 1940-41 and during the flying bomb attacks. There may be a snag about Wembley, however. Like citizens of certain American towns, who have raised objections to UNO, the residents have recently complained about the crowds who go to the "dogs" several times a week.

Monty Stratton Back on Mound with One Leg

By HAROLD V. RATLIFF
Associated Press Sports Writer

SHERMAN, Tex.—The pitching arm that for four years made Monty Stratton one of the stars of the major leagues returns to the firing line after eight years of professional baseball inactivity.

Stratton will be playing on one artificial leg for Sherman of the East Texas league.

The 32-year-old Greenville, Tex., giant lost the leg in a hunting accident in the winter of 1938 but has now become so accustomed to getting around on the ball field on an artificial limb that he's ready to try pro baseball again.

He has made several attempts but it wasn't until last season that he could reach the stride indicating he might once more participate with the play-for-pay boys. He was a star hurler in a big semi-pro tournament in Texas.

MONTY STRATTON
East Texas Leaguer Now

"Monty is 32 years old but he's in excellent physical condition despite his handicap," says President Arthur Willingham of the Sherman club. "He's still a good baseball pitcher in any man's league."

An East Texas league rule passed recently will permit Stratton to have a base-runner when the lanky veteran goes to bat.

Stratton started in the game at Van Alsyne, Tex., and in 1933 a Chicago White Sox scout saw the fireball pitcher and signed him. Monty first went to Galveston of the Texas league and remained a month before he was sent to Omaha in the Western league. The next year he was with St. Paul, then he went to the White Sox.

Stratton will assist Manager Guy Sturdy of Sherman in conducting a two-weeks baseball school here in early April.

BENEDICTINE WINS 49-44

By The Associated Press

CLEVELAND, O., March 12—The basketball championship of the senate league, Cleveland's largest high school loop, belongs to Benedictine today, after a 49 to 44 win over West Tech last night in which Benedictine had to made up an eight-point deficit.

New Leaders Grab Off Honors in Inter-city Pin Tournament

New leaders emerged in all classes of competition except singles in the second session of the Inter-City bowling tournament at the Palace Recreation alleys over the week-end.

Vallenga of Bellefontaine alone held onto his lead in singles, his 627 being good enough with 5 points to spare. Harmon of Lima was the closest threat this week with a 622 three-game total. Fanciest bowling of the week-end was done by DeMarco of Painesville, who rolled at 201 average for nine games. While bowling doubles he rolled 651, which would have given him a pretty safe option on the singles crown, but when he bowled in the singles he fell down to 589. Leaders in the singles are as follows, starting with third place: Bacon, Elyria 616; Carter, Painesville 612; Trisori, Ravenna 608; Ardo, Lorain 597; Hanker, Defiance 596; Miskelly, Sebring 595, Gebhardt, Elyria 591; and DeMarci, Painesville 589.

Takes Doubles Lead

In the doubles competition Nucciarone and DeMarco of Painesville took over the lead with 1,157 Weavers and Williams of Barberton, last week's leaders, managed to stay in second place by one point, their 1,134 just beating out the 1,133 bowled by Ducke and Nelson of Painesville this week. Other leaders are McQueen and Hoelzer, Sandusky 1,121; Durbin and Mankey, Lima, 1,119; Sayles and Rogers, Elyria, 1,116; Augustitis and Polumbo, Painesville 1,098; Fout and Dusa, Lorain 1,096; Doke and Budnick, Painesville 1,090; and Galvin and Mowery, Lorain 1,086.

In the Class A team competiton last week's winner, the George Briggs team from Defiance fell to fifth place. The line-up now reads as follows: Alpine Village, Lima, 2,745; Mar-Val Recreation, Painesville 2,744; Mel's Market, Lima, 2,697; Val-Mar Recreation, Painesville 2,592; George Briggs, Defiance 2,586; Wykrent Recreation, Elyria 2,531; Seven Mile House, Sandusky 2,531; Hellreigels, Painesville 2,529; Cloverleaf Dairy, Sandusky 2,525; and Lutz Restaurant, Painesville 2,500.

Class B Standings

Last week's class B team leaders, Sommers Buick of Lodi, dropped to fourth place. Top ten are now Home Service Laundry, Lima 2,607; Shelby Shoes, New Baltimore 2,524; Cloverleaf Dairy, Wauseon 2,488; Sommers Buick, Lodi 2,472; Knowes-Sniezek, Elyria 2,468; Tute's Magicians, Millersburg 2,462; Marine Bar, Vermilion 2,449; Barrett's Meats, Lorain 2,428; Snow's Tavern, Mt. Vernon 2,414; Hiebel's Plasterers, Fremont 2,372.

Only two Marion bowlers bowled in this session of the tournament. They were Al Shull and L. Oberlander. As a doubles team they scored 955, Shull 483 and Oberlander 472. In the singles Shull bowled 565 and Oberlander 525.

GOLD MEDAL TOURNEY DEADLINE SET TONIGHT

19 Teams Already Entered; Will Start Gold Medal Saturday.

The gold medal basketball tournament that will get under way at the "Y" Saturday night, March 16 has 19 entries at present. The deadline for entering will be at 7:30 this evening when the drawing will take place at the "Y." All teams are urged to have a representative present.

The tournament will be a single elimination affair with games going on both floors of the "Y."

Teams that have paid their entry to date are: Burson's of Carey, Delaware Independents, LaRue Merchants, Green Camp Panthers, Richwood Independents, Caledonia K. P., Shorty's Pro's of Marysville, DeMolay Alumni, Roecker's Bakery, Y-Indus, Kirkpatrick Ex-Highs, Kirkpatrick, Morral Supply Co., McMillen Feeds, J. D. Bain Store, Universal Cooler, Banko Grill, Martel Elevator, Isaly Dairy.

KELLER HIT STREAK

By The Associated Press

ST. PETERSBURG, Fla., March 12—Charley Keller, New York Yankee outfielder, was enjoying a 14-game hitting streak today following the Bronx Bombers' third straight victory over the St. Louis Cardinals yesterday, 7-4.

NORTHERN OHIO CAGE SCHEDULE ALL SET

League To Play 28 Games Next Season.

SHELBY, O., March 12—Northern Ohio league schools will meet in 28 official games during the 1946-47 cage season, according to the official schedule released today by Principal Byron Carmean of Shelby High school, league secretary.

Schools represented in the league are Shelby, Willard, Galion, Bellevue, Norwalk, Crestline, Upper Sandusky and Bucyrus.

Beginning with the grid season next fall, the league championship will be determined on a point basis instead of percentage as used now. Two points will be given a win, one point for tie and no points for losses.

The official 1946-47 cage schedule follows:

Dec. 13, Upper Sandusky at Bellevue, Bucyrus at Shelby; Dec. 20, Bellevue at Willard, Norwalk at Crestline, Shelby at Upper Sandusky.

Jan. 3, Bellevue at Norwalk; Jan. 10, Bucyrus at Galion, Upper Sandusky at Crestline, Willard at Shelby; Jan. 17, Bellevue at Galion, Willard at Bucyrus, Norwalk at Upper Sandusky; Jan. 24, Bellevue at Shelby, Bucyrus at Crestline, Galion at Norwalk, Willard at Upper Sandusky; Jan. 31, Bellevue at Bucyrus, Crestline at Willard, Upper Sandusky at Galion, Shelby at Norwalk.

Feb. 4, Crestline at Galion; Feb. 7, Norwalk at Bucyrus; Feb. 14, Crestline at Bellevue, Galion at Shelby, Norwalk at Willard; Feb. 21, Upper Sandusky at Bucyrus, Shelby at Crestline and Willard at Galion.

Games This Week

By The Associated Press

CLASS A

Friday at Bowling Green

7:30 p. m.—Sandusky vs Toledo Woodward.
8:15 p. m.—Wapakoneta vs Montpelier.

Friday at Dayton

7:30 p. m.—Hamilton Catholic vs Newark.
8:15 p. m.—Middletown vs Cincinnati Walnut Hills.

Friday at Youngstown

8 p. m.—Lakewood vs Warren.
9:15 p. m.—Salem vs Akron North.

Friday at New Concord

8:00 p. m.—East Liverpool (21-3) vs Akron St. Vincent (18-3).
9:15 p. m.—Marietta (19-4) vs Dover (19-5).

CLASS B

Thursday at Bowling Green

7:30 p. m.—Sandusky St. Marys vs Middlepoint.
8:45 p. m.—Gibsonburg vs Farmer.

Thursday at Youngstown

8:00 p. m.—North Canton vs Waynesburg.
9:15 p. m.—Adena vs Akron Ellet.

Friday at Springfield

7:30 p. m.—Wyoming vs Magnetic Springs.
8:15 p. m.—Northridge vs Bradford.

Friday at Athens

8 p. m.—Worthington vs Glenford.
9:15 p. m.—Wheelersburg vs Strasburg.

Artie Levine Knocks Doyle Into Hospital at Cleveland

By The Associated Press

CLEVELAND, March 12 — Three rights from Brooklyn's Artie Levine put Jimmy Doyle of Los Angeles in the hospital today with a brain concussion and gave him his first ring loss in three years.

Many of the 8,992 customers who paid $36,458 to see the match gathered around the ring last night as doctors worked over Doyle at the end of the bout, which was recorded as a technical knockout for Levine at 57 seconds of the ninth round. The contest was scheduled for 10, with Doyle giving 10 pounds to the 158-pound Levine.

It took at least 15 minutes to bring Doyle out of a coma. He was rushed to Charity hospital and Dr. Milton McKay said at least 24 hours would have to pass before the Los Angeles fighter was off the critical list.

There were three stiff right-handers in a row just before the end, and both fighters went down together on the last one, some of the ringsiders theorizing that Doyle's head hit a cloth-covered metal rope buckle as he lit.

Doyle was down for eight on the first of those three blows, and for nine on the second. Referee Jackie Davis stopped the match after the third one and a few seconds later, Dr. Arthur F. Hagedorn, physician for the boxing commission, was giving artificial respiration to the prostrate Los Angelano.

Until the ninth Doyle was out in front easily, and it appeared that Levine was tiring. On the Associated Press card Doyle had all but the fifth, which the referee took away from him for hitting low.

Here and There in Ohio Sports

By HAROLD HARRISON
AP Sports Writer

COLUMBUS, O., March 12—If Ohio State's baseball, tennis, golf and outdoor track team come through the Bucks should be in a fair way to become the all-round sports champions of the Big Ten (or is it nine) for the 1945-46 school year.

As of the present writing, the Bucks have two firsts, a third, a fourth and ties for fourth and fifth in the five Western Conference titles already decided.

That gives them the edge over all conference schools.

Ohio State's conference championships have been in basketball and swimming. Illinois reigns supreme in track and wrestling and Indiana hold the football championship.

But, whereas the Bucks have been no lower than a tie for fourth in any sport, their closest rivals—Illinois, Michigan and Indiana—each have a poor record in at least one sport.

Michigan was down in seventh place in basketball. Illinois was seventh in football, tied for fifth and sixth in basketball and sixth in swimming. Indiana was eighth in indoor track and since the Hoosiers failed to score in swimming they are given a tie for eighth, ninth and tenth.

* * *

"Saint" Fouls Out

A basketball scorebook, copyrighted back in 1921, contains a most unusual sample score sheet. It's "Africa" against "China." The two teams list such names as (Bob) Zuppke, (Alonzo) Stagg, (Doc) Meanwell, (Pat) Page and (L.W.) St. John.

The scorer was (Harold) Olsen.

Only one player fouled out of that mythical game and it was St. John. "Africa" won the game, however, even if "Saint" did accumulate four personal fouls and one technical.

Wintersteller and Ruth Named in AP Poll

Bob Wintersteller of St. Mary and Jim Ruth of Claridon have been given honorable mention as forwards on the class "B" all-Ohio high school basketball team announced by The Associated Press today along with the 1946 class "A" team.

Other players from this vicinity given honorable mention are: forward, Ransdell of Kenton, centers Fink of Columbus North and Regula of Mansfield, and guard, Fincher of Columbus Central, all Class "A"; Gerber, Nevada forward, F. Orians, Salem center.

Ten brilliant performers—eight seniors, one junior and one sophomore averaging an inch over six feet in height—were named as Ohio's stars of stars—members of The Associated Press 1946 all-state high school basketball teams in Class "A" and Class "B."

360 Nominated

They were chosen from nominations sent in by several hundred coaches and sports writers. They were sifted out from a group of 360 different players—167 in Class "A" and 193 in Class "B"—which were mentioned for the honors.

Named to the Class "A" first team are Eugene Melzer of Cincinnati Walnut Hills and Dick Burton of Mansfield at forwards; Mike Medich of Cleveland Benedictine at center, and Paul Lansaw of Middletown and James Harris of East Liverpool at guards.

The Class "B" team is Robert Hirsch of Northridge and Robert Slayman of Beach City at forwards; Glenn Hursey of Glenford at center, and William Newell of Columbiana and August Trenkamp of Ottoville at guards.

The selections were based on performances prior to tournament play and every effort was made to keep those selected at the positions at which they played regularly.

There was such a wealth of center material available in Class "A" it might have been possible to name anywhere from three to five centers on that squad but such an outfit would not constitute a balanced team in the strict sense.

The Class "B" first team is a bit unusual in that it includes a sophomore — Glenford's great Glenn Hursey at center. Although he's only 15 years old, Hursey was rated as one of the best. He scored 485 points during the season.

Class "B" also was well stocked with brilliant centers and Hursey was followed closely by South Charleston's Jim Hardman and Gibsonburg's Len Shull.

Bob Hirsch, one of the brother combination that led Northridge to the Class "B" state title last year and an undefeated record this season, was a runaway choice for a first team forward position. Slayman is a four-year veteran at Beach City and was highly regarded throughout his area of the state.

Second and third teams:

Class A

Second team: Eli Joyce of Akron South, forward; Henry Navarro of Toledo Macomber, forward; Neil Johnston of Chillicothe, center; Pete Cox of Canton Lehman, guard; Pete Spera of Canton McKinley, guard.

Third team: Don Sweet of Norwalk, forward; Don Baker of Dover, forward; Dick Schnitther of Sandusky, center; Cliff Wilke of Hamilton Catholic, guard; Don Smith of Newark, guard.

Class B

Second team: L. D. Allen of Franklin, forward; Eugene Proctor of Akron, forward; Jim Hardman of South Charleston, center; Jerry Puffer of Conneaut Rowe, guard; Walter Hirsch of Northridge, guard.

Third team: Harold Roth of Sandusky St. Mary, forward; James Brock of Glendale, forward; Len Shull of Gibsonburg, center; Bob Worley of East Canton, guard; Ralph Coon of Copley, guard.

LEO IS SPEECHLESS. Manager Leo (The Lip) Durocher (center) of the Brooklyn Dodgers seems subdued as he appears in Kings County Court, Brooklyn, for trial on a charge of assault on an Ebbets Field spectator, John Christian, following a game on June 9, 1945. With Durocher are Joseph Moore (left) an Ebbets Field policeman accused with the Brooklyn manager, and John Breslin (right), attorney. The trial was postponed until April 22. (Associated Press Wirephoto).

GLOVES

(Continued from Page 10)

the bell, both boys landing hard, clean blows. They both looked good in this round, with Garns seeming to shade Draper. In the second round Draper began rushing Garns and rocked him with successive hard punches. By the third round it was all Draper. He was tying Garns up beautifully in the clinches and was not wasting a punch. Garns was game but had taken too many jolting punches. He went down momentarily in the final round. The judges gave a unanimous decision to Draper.

Adds Little Comedy

One of the most colorful fights of the night was between Richard Auck of Bucyrus and William Krohmer of Marion at 130 pounds. Krohmer was a bit of a comedian, carrying his own gallery, to which he gave his full attention between rounds, kidding with the audience at large. But when the bell rang he was all business, and very good. He is a rangy boy, with a rangy fighter's wallop and is a good boxer. He had Auck down twice in the first round. The first punch was apparently inadvertently struck after the referee had called for a break during some action. Auck was knocked down cleanly. A short while later in the round he slipped and went down but took no count. Krohmer was fighting the nicest fight of the night that far up until the middle of the last round. He was using his left nicely and was giving Auck quite a going over and seemed to be on the way to a handy win. Suddenly he walked into a vicious right by Auck. He got up gamely and came back fighting, but he had been hurt and was not effective. Auck finished very strong and jolted Krohmer hard at the end of the round. A split decision gave the fight to the Bucyrus boy.

Dorman Knapp of Marion, who fought last year, was knocked out in the first round by Bud Craig of Delaware in the 118 pound class. Craig came out of his corner at the bell and started punching with aggressiveness and force belieing his 118 pounds. Knapp's troubles started with the bell. He was knocked down for no count, but got up to take a beating gamely. At about the halfway mark of the round Craig caught him on the ropes and pounded him down for a clean knockout.

Both good boxers, Knapp tried to slug it out but Craig had too many guns for him.

Fouls Are Costly

Thomas Mitchell, 155 pounds, of Delaware threw away his fight with Kenneth Jones, 150 pounds, of Galion on fouls. In a very rough fight both lads gave and received but it was Mitchell's fight had he not thrown away his advantage with rabbit punches and low blows. Most of the shady punches were delivered without malice aforethought in the heat of action when some fighters find it hard to pull punches in time to avoid fouling. The fight was fast and rugged and the crowd loved it. They started off with a bang. Jones was down twice in the first round, once for the nine count and Mitchell was down for no count once. Jones went down for nine again in the second round, but came back as though that was just what he needed. The last round saw furious action, and the lion's share of the fouls. The boys were in wonderful shape and received an ovation from the fans. It was a slug fest, but not a wild one; both boys were good boxers.

Ronald Abrams of Marion won a split decision over Leo Tuscan of Galion in the lightweight division. A wrong announcement at the end of the fight gave the decision to Tuscan but Abrams was called back to the ring to be named winner. Although Abrams went down a couple times in the first round on slips, he swarmed all over Tuscan in the succeeding rounds. Tuscan was exhausted in the latter part of the fight.

A fight between two Marion paperweights, James Sporre and Marvin Large, 150 pounds of fighting men (75 each) took the crowd's fancy. Both boys displayed skill and training complimentary to their trainer, Bob Minard of the Y. M. C. A. Large had the reach and seemed to have the fight in the bag at the end of the first round, but the scrappy little Sporre had other ideas and pushed the fighting in the second and third rounds. In the last round he bloodied Large's nose, and took the decision. The crowd was very enthusiastic over the bout.

In another lightweight fight, Dwight Trimble of Delaware lost no time in going out for the blood of Bob Price of Galion. Trimble was a ferocious fighter but did more wrestling than hitting. After his first surprise, Price began to fight back and the men mixed it up at a terrific clip for three rounds to the crowd's delight. Price took the close decision.

Two big men, Eugene Palmer of Galion, 168 pounds, and Ward Watkins of Delaware, 170 pounds, mixed it up for about one minute of fast, although clumsy, action when Palmer was forced to quit because of a profuse nose bleed. Watkins was awarded a T.K.O.

Wayne Wilson of Marion, 113 pounds, took a handy decision from Charles Randolph of Delaware, 109 pounds. Both were willing, but Wilson used his longer reach to full advantage and gave Randolph's face and nose a workmanlike going over. Wilson took the decision easily.

Andy Anderson of Marion decisioned William Carmer of Galion in a lightweight bout. Anderson brought a very competent left into the ring with him and had all the better of a test of slugging power in the first round. The second round was more even but in the third it was all Anderson again. The bout was exceptionally cleanly fought.

Willard Light of Bucyrus, 140 lbs., took a decision over John St. Germain of Marion, 144 lbs. in the night's curtain raiser. Light had the better of it all through the fight; St. Germain being unable to keep his nose out of trouble. This bout also featured good sportsmanship, neither man hitting in clinches and both men holding their punches if there was any doubt as to their fairness.

Maurice Chevalier of Marion, who fought last year, took the decision over Dick Brice of Galion in a lightweight fight. It was a rough and ready fight with the accent on action rather than science. Chevalier took a close but well-won decision.

Two Marion lads, James Russell, 114, and Harold Waits, 113, fought an interesting fight. Russell, a very promising little boxer, found Waits' drive a bit too much for him, but fought a very nice defensive fight. The pace told on Russell as the fight wore on and in the last round he was knocked down twice. Waits received the unanimous decision of the judges.

Donald Byles of Delaware at 111 lbs. decisioned Jack Millington of Richwood at 113 lbs. He outboxed and outfought Millington all the way, although Millington got in hard ones often enough to be a constant threat. Millington had an unorthordox method of clinching, anything north of the ankles being fair game. The judges gave Byles their unanimous decision.

Two Marion boys, William Miller at 102 lbs. and Willard Dixon at 105 lbs. fought a good fight for two rounds. Between the second and third rounds Dixon became ill from a blow in the stomach and was unable to continue. Miller was credited with a T. K. O. Dixon had the reach on Miller but the latter was experienced and scrappy.

The curtain came down on the night's boxing with two paperweights, Gene Coulson, 77 lbs., of Morral and Warren Ecker, 88 lbs., of Marion slugging it out for one round. Howilson was awarded the decision at the end of one round.

Jim Detrick of Marion, last year's featherweight champion, was scheduled to fight last night, but the fight was called off when his opponent came down with a case of cold feet.

Indians Knock Off Tigers 4-3, Thanks To Long Batting Drill

Tribe To Seek Third Straight Win Today in Grapefruit Clash with Reds.

By The Associated Press

CLEARWATER, Fla., March 12—Pilot Lou Boudreau of the Cleveland Indians collected a dividend today on his strategy of lengthy spring batting drills to develop "hitting pitchers."

Winslow (Wink) Stroup, rookie Tribe pitcher, stepped to the plate in the bottom half of the 12th inning yesterday and won his own exhibition ball game with a towering homer that toppled the world champion Detroit Tigers 4 to 3.

Stroupe held the Tigers to four hits in six innings of pitching to gain credit for the victory while Virgil (Fire) Trucks was charged with the loss.

Rip Radcliff, veteran Detroit outfielder, lifted one of John Podgajny's pitches over the wall in the first inning, but Les Fleming, Tribe first baseman, belted a home run in the second frame to tie the score.

Singles by Gene Woodling and Bob Lemon and a pair of walks netted two more runs for the Indians in the sixth inning but the Tigers knotted the count on a homer by rookie catcher Harvey Riebe in the seventh and an unearned tally in the eighth.

Podgajny and Joe Krakauskas also permitted but four Detroit hits in six innings while Tommy Bridges, Frank Overmire, Leo Kretlow and Trucks allowed Cleveland eight bingles in the overtime contest.

Manager Boudreau, who used a total of 21 players to snare yesterday's victory, will attempt to stretch the Tribe's exhibition victory string to three straight in a game with the Cincinnati Reds at nearby Tampa today.

* * *

Reds Not Worried Over Lack of Hits

By The Associated Press

TAMPA, Fla., March 12—Base knocks have been conspicuous by their absence at the Cincinnati Reds' training camp, but Manager Bill McKechnie isn't losing any sleep over the deficiency—yet.

The reason, he insists, is that his young hopefuls have been looking at nothing but Grade A pitching.

For the first two weeks it was the Redlegs mound staff, which the Deacon believes will be tops in the National league this season. Then, in Sunday's exhibition game with the Tigers, the hurling was by Lefty Hal Newhouser and Paul Dizzy Trout, two of the best flingers in the junior circuit.

"It's a case of the pitchers, from veterans to youngest members of the staff, being far ahead of the batters," opined McKechnie.

"LACK OF INTEREST" BLAMED BY BROKERS

By The Associated Press

NEW YORK, March 12—Buyers and sellers of stocks generally were unable to get together today and the result was a notably indecisive market performance.

Dealings were among the slowest of the past several months after a fairly active opening. Declines and advances of fractions to a point or so were visible in most departments near the fourth hour. Neither weakness nor strength was apparent anywhere.

Brokers attributed the listless shift more to what they called "lack of interest" than to any outright bearishness. Favorable news for individual issues was virtually ignored. Numerous customers still held aloof to await foreign developments and strike negotiations on the home front.

Fred Richards Dies At Home Near Marengo

Fred Richards, 43, farmer of the Marengo community, south of Mt. Gilead, formerly of Martel, died at 6:30 last night following an illness of two days. He suffered a heart attack.

Born Nov. 26, 1902 in Columbus, he was a son of Clem L. and Ida Mae Bailey Richards, the father a native of Hebron, O., and the mother of Zanesville. In 1925 he married Lena Moore in Dayton. A resident of the Marengo community three months, he moved there from Martel.

Surviving with his widow, are three children, Vernor, Laurnel and Claudia, all at home, two sisters, Mrs. Helen Gattes of Detroit, Mich., and Mrs. Elizabeth Leyman of Maple City, Mich., and two brothers, Clyde Richards of Utica, O., and Harry Richards of Royal Oak, Mich.

Funeral services will be conducted Thursday at 2 p. m. in the M. H. Gunder and Sons funeral home on West Center street, Marion. Friends may call at the funeral home after 7 tonight.

Bradley Asks Bill for Using Ex-Officers

By The Associated Press

WASHINGTON, March 12—General Omar N. Bradley today asked congress to liberalize provisions for employment of retired officers so the Veterans Administration can fill its need for men trained in managing hospitals and offices.

Testifying before the house military committee, Bradley noted that those retired for age or length of service and entitled to $2,500 a year retirement pay could not be taken on by his agency. He advocated a pending bill which he said would permit them to accept.

PUBLIC SALE
As I am discontinuing farming, I will offer for sale at location at the north edge of Marion on the Delaware road, opposite the WMRN Broadcasting Station, beginning at 12:30 a. m. on
Thursday, March 21
The following described property:
Six tractors, two regular Farmalls on rubber, two Wallace tractors on rubber and one on steel, and two International 20-30 tractors on steel.
Five combines: one 26-ft. Oliver with motor, one 10-ft. John Deere, one 12-ft. International, one 10-ft. Case and one 8-ft. John Deere with power take-off.
Seven discs: one large Oliver tractor disc, one Ford tractor disc, one Massey-Harris tractor disc, three International small discs and one horse-drawn disc.
One large cultivacker, one large rotary hoe, two 2-row International corn cultivators, one 4-row international corn planter, one wheat blower.
Two drills; one 20-hole Superior drill with fertilizer attachment and also a 14-hole drill without fertilizer attachment.
Two spring tooth harrows in three sections each and one other three-section harrow.
Four rubber-tired wagons.
Seven tractor plows; one John Deere three-bottom on steel, one rotary hoe, two 2-bottom on rubber, one P.O. 3-bottom on steel, one Huber 3-bottom on rubber and three P.O. 2-bottom on steel.
One tractor steder with 60-ft. spread. Two 1944 2-row New Idea corn pickers.
One 1937 Two-Door Dodge car, with 1940 motor. One 1934 Dodge school bus.
Considerable amount of new fencing. Many tents and good canvas. Several other items of miscellaneous property (implements, tools, etc.)
Terms: Cash on day of sale.

LOVE'S FAIR HORIZON

By ADELE GARRISON

INCREDULITY spread over Olga's mobile face at my words, and then a pathetic expression of hope was mirrored there.

"I know you never say anything without reason, my dear Madge," she said "But will you forgive me if I ask you what basis you have for your belief?"

"Of course I'll forgive you," I answered, "Only, I've told you many times that 'forgive' is a word which I do not wish you to use when you are talking about my reacti , to something you have done. And I have a very good basis for what I have said to you"

I paused, literally for breath, then went swiftly on.

"It is not based on my own opinion, but on something which Georges himself said"

She stared at me, her eyes beginning to have a starry look in them

"You mean he told you that he had been jealous of Olina with Noel?"

"He did not mean to tell me," I said, with a reminiscent grin at the remembrance of George's attempt to walk a tight ope between his renunciation of Mary's photograph and the attendant declaration that he meant to take her advice about "going all out for Olina." Also, his parting message to Mary, bidding her remember that he never would forget her, and would love her always

Could Not Tell

But those were things I could not tell Olina's mother, so I told her, instead, of the other part of the conversation, in which Georges betrayed the jealousy of Olina with Noel, which, I was sure, had poisoned him since the days of the "international romantic quadrilat,' George, Mary, Noel and Olina as Dicky had dubbed them.

When I had finished, she nodded her head wisely.

"I believe you are right," she said, "You never can know how you have relieved my mind of its greatest fear. But do you mean that Georges never was in love with Mary, or she with him?"

"Of course they were in love with each other or thought they were, which is the same thing in youth — in those days down on Long Irland, year ago

Had Flouted Georges

"Remember," I went on, "Olina had flouted Georges and run away from him What their real reactions to each other were, I do not know, but I do know certain things"

I stopped, and began to enumerate my points with the forefinger of my right hand, tapping the knuckles of my left.

"First, Georges was naturally a bit piqued at Olina, determined to 'snow her,' in our parlance, that she wasn't 'the only pebble on the beach'"

Olga's laugh suddenly rang out, and I saw that I had succeeded in banishing the specter of fear from her mind.

"I just remember that," she said "It is delicious And I just can see George in action"

Spread His Wings

"He certainly spread his wings and flew around like mad," I said smiling "And I am sure it wasn't all pique Mary was the loveliest thing in those days"

"She still is," Mary's mother-in-law said loyally

"You should have seen her then," I commented, and then went on to my second point.

"And Mary was more than a little piqued at the way—forgive me, Olga, but you probably know this - Noel's father was trying to break up his attraction for her and focus his attentions on Olina, who, he had discovered, was the missing princess of Transvania"

"Yes, Philip has told me how wrong he was in those old days," Philip's loyal wife said. "And you do believe now, do you not, dear Madge, that my Philip approves of his son's marriage, and really loves Mary'"

(Continued tomorrow)

RATIONING CALENDAR

Sugar—Book 4 sugar stamp 39 good for 5 pounds until April 1 Spare stamp 9 good for 5 pounds canning sugar until Oct 31 Effective March 11.

Liquor — Ration period No. 33, which began March 11, is good for one ration until through March 27 One unit consists of one fifth or two pints of rationed liquor Whisky, if blended with imported cane spirits or gin, is not rationed

Daily Pattern For Home Use

By ANNE ADAMS

4549
SIZES
14-20
32-42

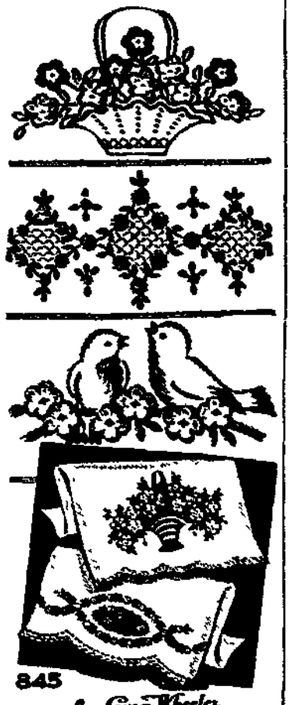
You're going to love Pattern 4549 for its "open-out-flat" button-front that simplifies ironing, and is so comfortable to wear. You may have short, three-quarter or cap sleeves

Pattern 4549 comes in sizes 14, 16, 18, 20; 32, 34, 36, 38, 40, 42 Size 16 requires 3 yards 39-inch fabric.

Send twenty cents in coins for this pattern to The Marion Star 100 Pattern Dept., 243 West 17th St., New York 11, N. Y. Print plainly Size, Name Address, Style Number

Don't miss the Anne Adams Spring Pattern Book which is yours for only Fifteen Cents more! Full of smart easy-to-sew styles for all. It has a Free pattern for hat-and-gilet set printed right in book.

NEEDLEWORK PATTERN



845
by Laura Wheeler

Many pretty motifs small enough to do in a hurry! You'll welcome this embroidery for its variety of design, and easy stitches

A little time, a few stitches, presto—new life for your linens! Pattern 845 has transfer of 16 motifs averaging 2x6 in.; stitches

Send Fifteen Cents in coins for this pattern to The Marion Star 86 Needlecraft Dept., 82 Eighth Avenue, New York 11, N. Y. Print plainly Pattern Number, your Name, Address and Zone

Fifteen cents more brings you our newest Needlecraft Catalogue—the 1946 edition—112 illustrations of designs for crochet, knitting, quilts, embroidery, toys, handicraft—a free pattern for cuddle toys printed right in the catalogue.

YOUR HEALTH

By HERMAN BUNDENSEN, M.D.

Blood Disorders

SOME years ago treatment for two serious disorders with radioactive phosphorus was tried These two disorders are leukemia and polycythemia. In the first of these two conditions there is a great increase in the number of white cells in the blood. In the second condition it is the red cells that are overplentiful.

Doctor Shields Warren of Boston, Massachusetts, has studied 81 patients who were treated in this way, starting in January, 1940 Radioactive phosphorus is not easy to obtain but since the end of the war it is hoped that a more plentiful supply will be available

The preparation, dissolved in a mixed salt and glucose solution was given by injection, into a vein He feels that it is better to give it by injection than by mouth, since more of it is absorbed in this way.

Dr. Warren also used it in a number of patients with Hodgkin's disease a condition affecting the lymph glands in the body, causing them to enlarge. He chose those cases for treatment which had responded to X-ray for a while but which later on were not improved by further X-ray treatments

Taking the patients treated by Doctor Warren as a whole, it would appear that about one-third of them were benefited. No harm was done by the administration of the radioactive phosphorus in the doses employed. It was found that the doses used did not damage the formation of normal red blood cells.

Thus it was noted that in the cases of leukemia, while the white cells decreased in number, the red cells increased In polycythemia, in which the red cells are increased above normal, the radioactive phosphorus caused a drop in the red cell count

Blood cells are formed in the bone marrow. If there is normal bone marrow present even heavy dosages of the radioactive phosphorus will do no permanent harm.

In one instance, a patient developed what is known as radiation sickness, which is a condition sometimes occurring following X-ray treatments but was discontinued One patent also complained of sickness of the stomach following treatment and the treatment was discontinued The patients did not develop fever.

Practically all of the radioactive phosphorus given is excreted by the kidneys. Hence, it is not retained in the body.

In view of the fact that this type of treatment does no harm and appears to give benefits in such serious conditions as leukemia and polycythemia, it would appear in many instances to be worth trying in these diseases particularly when a more liberal supply is available.

QUESTIONS AND ANSWERS

E F· Can you give me a remedy for excessive perspiration of the feet"

Answer· Excessive perspiration of the feet sometimes is due to wearing the wrong kind of stockings and shoes. Rubber-soled shoes are objectionable in this respect

Despite wartime driving restrictions, 2,050 school children were killed in motor vehicle accidents in 1944.

NEWS FROM OUR BOYS

Ten Ohio soldiers from this area, two whose homes are in Marion, were discharged from the service Wednesday at the Atterbury Separation Center, Ind., according to a report from there. They were T/5 Lloyd L. Davis of 494 Osgood street, Pfc. Enos R. Wise of 488 Evans road, Sgt. John E. Thomas of Upper Sandusky, Cpl. Robert M. Virtue and S/Sgt. Gordon D. Sponseller of Bucyrus, T/5 Paul W. Krouse of Delaware, Pfc. Richard H. Graham of Morral, Pfc. Donald L. Young of near Cardington, T/5 Morris A. Rex of Mt. Gilead, and T/5 John R. Stiner of Galion.

Second Lt. William E. Leser, Air Corps, of 761 Henry street, and Capt. Phillip R. Riddle, Air Corps, of Delaware were among officers who reverted to inactive status that day.

* * *

Four Marion men were among other Ohio men from this area who were discharged from the service Friday at the Atterbury Separation Center, according to reports from there. They were T/4 Warren W. Reish of 153 North Greenwood street, Cpl. Robert R. Forsythe of 723 Delaware avenue, T/5 Charles J. Samples of 410½ Davids street, and Cpl. Delmar M. Mayer of 211 Jefferson street. Others from surrounding cities included T/4 John C. Arn of Kenton, Pvt. William H. Hogan of Delaware, T/4 Clifford E. Bland of Carey, and S/Sgt. Wallace C. Enders of Bucyrus. First Lt. Edward A. Potter of Ada was among officers who reverted to an inactive status.

* * *

Pfc. Orville Beckel, son of Mr. and Mrs. Hartley Beckel of Waldo, recently spent a 5-day furlough with his parents. He returned Sunday to Mairenville, Pa., where he is a guard at a prisoner of war camp. Pfc Beckel has been in the service 19 months and served overseas in the European theater five months. While overseas he served with the 3rd Army.

* * *

Lloyd E. Moore, Ph. M. 3/c, has returned to the U. S. Naval hospital in Astoria, Ore., after spending a 15-day furlough with his parents, Mr. and Mrs. C. E. Moore of Magnetic Springs. He is enrolled in a special course in physiotherapy at the hospital.

* * *

Lt. (j. g.) Frederick W. Warner Jr., son of Mrs. Fred W. Warner of 804 Girard avenue, is now on terminal leave and has been released to inactive duty in the U. S. Naval Reserve. He was in the service 32 month with 15 months of that time overseas in the Pacific theater.

* * *

Albert Joseph Hogue, aviation radioman, 3/c, of 261 Olney avenue, is a member of the maintenance division of Headquarters Squadron, Fleet Air Wing Two, at Hawaii, which services bombers before they are returned to the States, according to word received from the newscenter at the Naval Air Station, Kaneohe, Oahu, Hawaii. These bombers have all been in action against the enemy in the Pacific.

* * *

Three servicemen from this area, one whose home is in Marion, were among Ohio men who were discharged from naval service Thursday, March 7, at the U. S. Naval Personnel Separation Center, Great Lakes, Ill. They are Robert L. Dennis, fireman 1/c, of 138 Carhart street, Otas W. Reese, seaman 1/c, of Ada, and James E. Searson, motor machinist's mate 3/c of Dola.

* * *

Carroll W. Williams, chief radioman in the U. S. Navy, was recently promoted to his present rank from radioman 1/c, according to word received by his parents, Mr. and Mrs. Ralph Williams of 246 Chase street. He enlisted in the Navy in Feb. 1941, following his graduation from Harding High school, and received his training at Great Lakes Naval Training Center. After attending radio school for five months, he was assigned to the aircraft carrier, USS Enterprize, in January 1943, and because of the participation in many major battles, the unit was awarded the presidential unit citation. Since that time he has served on different ships in several battles. He has now been assigned to the USS Clamp, a repair and salvage ship, which is scheduled to participate in the atom bomb test at the Marshall Islands.

* * *

Mrs. H. H. Beringer of 123 East Farming street and Mr. and Mrs. Carl Howes of Columbus visited during the week-end with their sons, Jack Beringer and Glenn Howes, who are stationed at the Naval Training Base at Bainbridge, Md. They enlisted in the Navy four weeks ago. They were joined in their visit there by Carl E. Morris, seaman 1/c in the U. S. Coast Guard, stationed at Washington, D. C. He is the son of Mr. and Mrs. Chester B. Morris of 524 North Prospect street. Seaman Morris entered the service June 29, 1945.

* * *

Pvt. Billy Spurgeon, paratrooper, son of Mr. and Mrs. Russell Spurgeon of 443 Girard avenue, arrived home Sunday on a 15-day furlough. He recently completed a baking course at Ft. George G. Meade, Md., and was transferred to the 82nd Airborne division. At the end of his furlough, he will report to Ft. Bragg, N. C.

PLAN BANQUET AT UPPER

UPPER SANDUSKY, March 12—The Ladies' Auxiliary of the F. O. E. met Thursday evening. Plans are being made for a banquet March 21. The two losing teams are to banquet the winning teams. Captains are Mrs. Bertha Risner and Mrs. Helen Kirts. There will also be installation of all candidates taken in during the contest.

Aim at Electric Power for Every Marion Co. Home

Marion county may become the first in the state to have electricity available to every farm, according to Kenneth Kinsler, manager of the Marion Rural Electric Co-op, Inc.

Only about 100 houses in the county still do not have power lines available, Mr. Kinsler said, and plans to extend lines to them are now being considered. Several other counties in the state are running close to Marion in providing electricity to farmers, but Marion still has a chance of being the first, according to Mr. Kinsler.

The cooperative organization now has nearly 300 miles of line in Marion county and under its expansion program it plans additional lines in scattered rural areas. Besides Marion county, the co-op's lines extend into Wyandot, Union, Morrow, Hardin and Crawford counties.

A $75,000 allotment from the REA has recently been received and will be used for the purchase of additional wire and poles as soon as such material is available. Lack of materails is the main feature holding up the construction of new lines, Mr. Kinsley said.

The association is a cooperative organization. Every farmer served by it is a member. The board of trustees includes F. A. Davidson, president; W. H. Uncapher, vice president; F. C. Loyer, secretary-treasurer, and H. A. Hall, F. C. Wilson, Harvey Eichhorn and I. E. Beers, trustees.

National REA headquarters has announced plans to service 1,329,000 rural homes with electricity during 1946. When the fiscal year 1945 ended June 30, 926 REA groups were ready with line building plans.

The local co-op has cleared land for building a new brick office and warehouse at 208 South Prospect street. The one-story building will have a 37 foot frontage and a 150 foot depth. An office will be located in the front and service and meter department and supply stock rooms in the rear. Present offices are at 146½ South Main street.

The cooperative recently purchased a new truck to be used for setting meters and maintaining light service.

Sales Tax Receipts Show Gain in Week

Sales of prepaid tax receipts in Marion county for the week ended Feb. 23 amounted to $8,692.80, a gain of 23.6 per cent over the total for the similar week last year, $7,194.45, the office of Don H. Ebright, treasurer of state, reported. Collections to date were $63,395.29; last year, $50,295.44.

Throughout the state the amount of collections on the tax stamps for the week ended Feb. 23 stood at $1,403,502.70, while the figure for the like week last year was $1,050,092.96. Collections to date were $9,879,277.60; last year, $7,788,204.94.

For counties around Marion, figures on the sales of tax stamps for the week ended Feb. 23, and on collections to date, with those for last year in parentheses, were listed as follows:

Crawford, week ended Feb. 23, $5,933.81 ($2,591.12), collections to date, $29,816.42 ($28,636.32).

Delaware, week ended Feb. 23, $2,724.72 ($1,269.15); collections to date, $13,149.34 ($14,635.73).

Hardin, week ended Feb. 23, $2,624.27 ($2,443.90); collections to date, $24,494.36 ($18,192.21).

Morrow, week ended Feb. 23, $521.55 ($391.82); collections to date, $6,695.80 ($3,847.42).

Union week ended Feb. 23, $1,992.17 ($1,639.45), collections to date $14,156.25 ($10,061.14).

Wyandot, week ended Feb. 23, $2,107.16 ($1,719.24), collections to date, $15,187.68 ($10,522.58).

FIGHTS LAST NIGHT

By The Associated Press

PHILADELPHIA—Ike Williams 136½, Trenton, N. J., stopped Eddie Gloss, 136½, Philadelphia (4) (non title).

LIMA SIGNS UP VET AS PLAYER-MANAGER

By The Associated Press

LIMA, O., March 12—Charles E. Moore, 27, of Pontiac, Mich., has been signed as player-manager for the Lima team of the Ohio State Baseball league. Moore was discharged from the Navy last September after three years and eight months abroad a destroyer.

As the property of the Detroit Tigers, he played with Tiffin of the Ohio State league in 1938 and with Newport, Ark., of the Arkansas State league in 1939.

NO-HOLDS-BARED BOUT BILLED THURSDAY NIGHT

Indian and Ali Pasha to Ignore Referee and Vice Versa.

Thursday night's wrestling card will be headed by another no-holds-barred fight matching Ali Pasha against Indio Yaqui. When these two fought several weeks ago Pasha was disqualified for roughness. This time referee Sammy Vangler has agreed not to disqualify either wrestler.

Whitey Walburg, who won last week, will wrestle Steve Nenoff in the second 90 minute best two out of three falls bout.

A tag team match between two Marion teams will constitute the 10 minute prelim. Bob Rose and Dorman Knapp will oppose Howard Edington and Kenny Saunders.

Piles Are Never "Mild"

DANGER IN NEGLECT

No one should ever think of piles (hemorrhoids) as a "mild" disorder.

Although they may seem a "mild" ailment, especially when not giving pain or inconvenience, piles are in fact tumor formation without tendency to heal themselves; instead, they are likely, if neglected to keep increasing in size, involving more and more of the rectal area.

Even a so-called "mild" case may be expected to undermine one's health by inviting, predisposing to or aggravating other ailments, such as: indigestion, biliousness, stomach trouble, constipation, headaches, pain in back and down the legs, secondary anemia with its run-down tired feeling, and general nervous irritability.

Removal of piles is the only permanent relief—written guarantee. My method produces little or no discomfort, does not require the use of knife or drugs, and seldom is the patient required to lose any time from work or other duties.

Why not call and learn of this method? The examination is free.

Write for reference and booklet "What Your Neighbors Say."

...in fierce rioting and bloodshed. He is the current "Patrick Henry" of Egypt's youth.

Momen is also a member of the Moslem Brotherhood association, an organization of growing power which ultimately aims at political liberty for Moslems from Casablanca to Calcutta.

Sees Possible Revolt

He believes forthcoming negotiations between Egypt and Britain will fail and says that if the UNO security council takes no steps toward removal of British troops from this country "the students will revolt and themselves attack all British installations.

"Since 1882 the British have promised 20 times they would evacuate their troops from Egypt," he told me during an interview, "but they have never fulfilled their promises.

"For 64 years Egypt has been occupied by these foreign troops, and they always create fresh reasons for staying."

It is difficult for an American to realize the difference between students here and college boys in the United States, who are more likely to get injured crowding around a ticket booth to buy tickets on the 50 yard line for a homecoming football game than by stopping a bullet in a political riot. Momen explained their function:

"Our nation is divided into three main classes—farmers and workers, students and government officials.

"The farmers and workers must labor every day to earn a living and aren't well organized. They can't continue demonstrations because they must work to live. The government officials are forbidden by law from demonstrating.

Only Students Are Free

"Only the students are free. Therefore all movements and revolutions against British rule—in 1919, in 1935 and this year—were led by students. We have 210,000 university and secondary school students in Cairo and three times that number in the rest of Egypt.

"We want total military evacuation of British troops, removal of Egypt from the British sterling bloc so we can resume trading with America, Russia and other countries, and full political independence for Egypt—including the Sudan.

"And the students are ready to give their lives to get independence and the union of the Nile countries."

Momen said that to achieve their aims the students were organizing a program such as that followed by De Valera to win Irish freedom.

They have banded into four groups, he said, each with separate functions in event of a crisis.

"One group is taking military training," he said. "There are also a first aid group, including women students who can act as nurses; a morale group to give political talks to people in all cities of Egypt, and a fourth group to organize boycotts against British manufactured nonessential goods, such as cigarets, liquor and films.

"We are ready to fight for our liberty," he said. "My life wish is that we can build the high building of independence for our nation. We hope that God and all men who love justice will help us in our problem."

The New York Stock Exchange, the world's largest, was founded in 1817.

Red Cross Faces Big Task in Aid for U. S. Veterans

With the Army and Navy straining to meet a June, 1946, demobilization deadline, Red Cross chapter workers, not only in Marion county but throughout the country find themselves in the midst of the nation's greatest post-war adjustment job, Clarence Shockney, chairman of the 1946 Red Cross Fund Campaign drive said today. On the Marion County Red Cross chapter devolves the job of continuing the Red Cross service to which veterans of Marion county became accustomed while in uniform. This service is made possible through the voluntary subscriptions of citizens in the annual fund campaigns. This year Marion county's quota of the one-hundred million national goal is $36,300.

The Red Cross Home Service, of which Miss Jane Watters is secretary, Miss Jean McLeon, case worker and Miss Marguerite Moffett is assistant case worker, provides the following types of assistance:

Consultation and guidance in personal and family problems. Financial assistance on the basis of need during transition from military service to civilian life, either from chapter funds or other resources. Help in finding the agency which can meet a specialized need such as a job, a home, farm or business loan, state aid and the like. Aid in preparing and presenting claims for government benefits. The Red Cross maintains specialists in all veterans Administration offices to help with such claims. Information concerning government regulations and laws affecting veterans and their dependents. Red Cross specialists keep information regarding legislation and procedure flowing to chapters at all times.

Church Group Meets at Upper Sandusky

Special to The Star

UPPER SANDUSKY, March 12—The Junior Mission Band of the St. Paul Lutheran church met Friday evening at the home of LeRoy Everhart, in charge of Miss Carol Ann Cope.

The group voted $20 to the fund for reconstruction of the Foreign Missions.

Miss Kathryn Artz gave a talk on "Prayer" in accordance of the "World Day of Prayer." Miss Barbara Armstrong and Miss Carol Ann Cope sang a duet. Tommy Koehler gave a story. Junior Seiler and Richard Krebs and John Tschantz win prizes.

The presence of fangs in the mouth of a snake is the only certain means of deciding whether it is venomous or not.

Lady's Stomach Was Like a Gas Factory; Meals Turned To Gas

One lady said recently that her stomach used to be like a "gas factory!" That is, when she ate a meal it seemed to turn right into gas. She was always bloated, had awful stomach gas pains, daily headaches and constant irregular bowel action. Now, however, this lady says she is FREE OF STOMACH GAS and she says the change is due to ERB-HELP. Her meals agree with her. No gas or bloat after eating. Headaches and constipation are gone. "Oh! what relief!" states this lady. "Why don't other gas and constipation sufferers get Erb-Help?"

ERB-HELP contains 12 Great Herbs; they cleanse Bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get ERB-HELP. Sold by all drug stores here in Marion.—Adv.

Social Affairs

MRS. MAURICE TOBIN of 498 Oak street is announcing the engagement and approaching marriage of her daughter, Anna Mae, to Robert W. Johnston, son of Mr. and Mrs. Robert E. Johnston of 219 Silver street. Miss Tobin and her fiance have chosen Wednesday, May 1 for the ceremony which will take place in St. Mary Catholic church. The pastor, Rev. William J. Spickerman, will perform the ceremony and be the celebrant of the nuptial high mass. Both are graduates of St. Mary Parochial High school. Miss Tobin is employed in the office of the Marion Steam Shovel Co. Mr. Johnston recently received his discharge from the U. S. Army after four years of service, 40 months of which was overseas. He is employed at the Home Super Market on Silver street.

Members of the Di Penates club met Friday afternoon with Mrs. S. K. Martin of Franklin street. Mrs. Lynch was a guest. Awards for the afternoon were won by Mrs. F. T. Haybeck and Mrs. Lynch. The hostess was assisted in serving by her daughter, Mrs. J. A. Dodd. Mrs. J. C. Cooper will be hostess to the members in two weeks.

Personal Mention

Mr. and Mrs. Raymond L. Young of 141 Reed avenue returned Saturday after a month's vacation in Pennsylvania, Maryland and Florida.

Mr. and Mrs. Robert W. Armstrong of 185 East Columbia street are spending the week in Indianapolis, Ind.

Fay Kuhn, son of Mr. and Mrs. Fay Kuhn of the Smeltzer road, has gone to Cleveland, Tenn., where he is enrolled in the Bob Jones Bible college.

CALEDONIA EASTERN STAR

A silver tea together with an exhibit of souvenirs from the Philippines and China, will follow a regular meeting of Vera Chapter, Order of the Eastern Star, Wednesday night at Caledonia. Proceeds of the tea will be used to finance a philanthropic project of the grand worthy matron, Mrs. Edith Conger of Dayton.

SUNBURY MAN BIDS

By The Associated Press

COLUMBUS, O., March 12—The state highway department received bids today on five bridge projects, all of them higher than department estimates. Among them was a bid of $49,385, as against the department estimate of $37,000, submitted by James T. Shidecker of Sunbury for a bridge over Polk Creek on State Route 73, the Wilmington-Hillsboro road, in Highland county.

Weddings

Mr. and Mrs. Hiram Huffman of 128 Plymouth street are announcing the marriage of their son, Francis Huffman, to Josephine Moore, daughter of Mr. and Mrs. Hugh Moore of Galloway, W. Va. The double ring ceremony was read Friday, March 8, at 7 p. m. by Rev. C. W. Finch of the Gospel Tabernacle on West Center street.

The bride chose for her wedding a blue dress with which she wore black accessories and a corsage of red rosebuds. Her attendant, Mrs. Doris Chapman, was attired in a black dress with black accessories and a corsage of yellow rosebuds.

Attending the bridegroom as best man was Arthur Bowman. The bridegroom's mother chose for the wedding a black and white flowered dress and wore a corsage of sweet peas.

Following the ceremony, the bridegroom's parents entertained at the couple's new residence at 131 Plymouth street. The table was centered with a three tierd wedding cake. Mr. Huffman is a discharged veteran of the 82nd Airborne Division.

Mrs. Gay Bode was a guest when the Eclipse Euchre club met Friday evening with Mrs. Louise Griffiths on Cherry street. High honors in cards went to Mrs. Virginia Merchant, floating to Mrs. Lillian Clark and the consolation to Mrs. Willie Sehorne. The next meeting will be March 22 with Mrs. Dorothy McMurray on East Center street.

EASTER BUNNY HAT. Roses are red and so on, atop this Easter bonnet worn by Ann Miller as a Los Angeles cameraman caught it — but they aren't real. Good thing they're not, or that live bunny up there with nothing else to do might nibble 'em out of sheer boredom.

Girl Scouts Mark 34th Anniversary

Girl Scouts of Marion are joining others throughout the nation in the annual observance of Girl Scouting which is being celebrated this month. Girl Scouting was inaugurated in the United States 34 years ago today.

While no official observance of the anniversary is being made here emphasis is being given to the national activities in the various meetings. Friendship bags, containing needles and thread, tooth paste, tooth brushes and other small toiletries, are being made and filled by the girls to be sent to countries designated by the national organization. The quota is 100 by June 1.

Mrs. Fillmore Young and Mrs. Paul Bachman of the Girl Scout Council will go to Atlantic City, N. J., for the first postwar meeting of the national council March 20, 21 and 22. Guest of honor at the convention and speaker at an international banquet will be Lady Baden-Powell, wife of the late Lord Robert Baden-Powell, founder of the Scouting movement for both boys and girls.

Girl Scouting has been a part of girls' activities in Marion since 1919. The present Marion Girl Scout council was organized in 1933 at which time there were 27 girls enrolled in one troop. Today there are 27 troops with a total of 570 girls enrolled. Approximately 150 adults are interested in the work through their affiliations with the Girl Scout council and as leaders. The Girl Scouts are a participating agency in the Marion Community Foundation, Inc.

BEIGHTLER FEARS A-BOMB

By The Associated Press

CANTON, O., March 12—Agreements to outlaw the use of atomic bombs could not be kept, believes Maj. Gen. Robert S. Beightler. The former commander of Ohio's 37th infantry division also told an audience last night that he had to concede for the first time that in the future the role of the ground soldier may be subordinate to the use of air power.

Umbrellas were used in ancient Egypt.

HI-Y CONFERENCE SET HERE SUNDAY

200 Expected To Attend from Surrounding Towns.

Approximately 200 Hi-Y Club boys and leaders, representing clubs from Marion, Bucyrus, Upper Sandusky, Carey, Forest, Mt. Gilead and Galion will attend the district conference under the auspices of the Marion Y.M.C.A. Sunday, March 17.

The conference which is to be held in the Epworth Methodist church will begin at 2 p. m. and end at 8, Dr. Frank D. Slutz, nationally known Hi-Y conference speaker, lecturer, educator, and psychologist, will act as moderator and conference speaker.

The conference will be divided into six sectional conferences or workshops with the following discussion topics:

1. "Hi-Y and the Community." 2. "Cooperating with Girls Organizations." 3. "Accomplishing Hi-Y Purpose through Adequate Program." 4. "Personal Reconversion to Post War Living." 5. "My Future Family Life." 6. "Does Youth Want Compulsory Military Training?"

The discussion leaders for these various groups are as follows: A. C. May, principal, Harding high school; Ed. Hagaman, general secretary, Y.M.C.A., Bucyrus; Thomas Zuck, teacher, Edison High school; W. F. Probst, teacher Galion High school; I. E. Mulholland, teacher, Carey High school; Miss Edith Brown, teacher, Harding High school; E. N. Hale, Y.M.C.A., general secretary.

The ladies of the Epworth Methodist church will serve dinner in the church dining room at 5:30 p. m. Dick Smith, president of Agenda Hi-Y Club of Harding High school and president of District No. 9 Hi-Y Council will preside at the conference sessions. The conference is part of the over all program sponsored by the Boys Committee of the local Y.M.C.A. which is composed of the following men: Arthur Van Atta, chairman, A. C. May, W. E. Orcutt, John Humphreys, Cecil Gabler, J. E. Reed, Ralph Bingman, Lowell Shambaugh and George Charlesworth, Y.M.C.A. boys' work secretary.

Richards, car repairman, and Jane Spicer, drill press operator, both of Marion. Arthur Bowman, railroad helper, of Marion, and Jean Gruver, waitress, of near Marion. James O. Cornwell, machinist, and Lana Mae Elmore, beautician, both of Marion.

High Divorce Mark

Judge Paul D. Smith set a new 1946 record in common pleas court Saturday by granting 12 divorces. The number represents the most ever granted in a single day by Judge Smith and was the largest number granted this year in any single day.

APPROVE OHIO D. A.'s

By The Associated Press

WASHINGTON, March 12—The senate judiciary committee yesterday approved the nominations of David C. Walls as U. S. district attorney for eastern Ohio and Donald C. Miller for northern Ohio.

STONE'S GRILL OPENS NEW ROOM THURSDAY

Photo Mural Industrial Calvacade To Feature Decorations.

Stone's Grill will open in its new location at 125 South Main street Thursday, according to Maurice Coen, manager. It is a newly renovated two-story building formerly occupied by Nu-Way Market and two doors away from its former location.

Feature decoration, Coan said, will be a 100 feet long photo mural, which will run the entire length of the first floor room. The mural will be entitled "Cavalcade of Marion Industries" and will depict scenes of local plants, aerial, interior and exterior. There will also be an aerial view of the city in the mural.

The front of the two-story building will be decorated with structural glass block. The upper floor will house the kitchen and the grill will occupy the ground floor. The grill contains a long mahogany bar and upholstered leather booths. Its ceiling is composed of soundproof material such as is found in broadcasting studios. Lighting is recessed and the building is air conditioned. The kitchen is operated electrically.

Stone's Grill left its former location in the Gallegher building last month when the building was torn down.

Officers Elected By Rural Youth Group

New officers for the Marion County Rural Youth Group were elected at a meeting Monday night in the Y.M.C.A. with 55 members present.

The new officers are Loren Seiter of Pleasant township, president; Paul Dasher of Grand Prairie township, vice president; Mary Ellen Mayers of Pleasant township, secretary; Alice Price of Claridon township, treasurer and Marjorie Kreis of Pleasant township, reporter.

Discussion leader for last night's program was Hazel Clunk of Waldo. Next meeting will be April 8 with Ivan Beckel of Richland township serving as discussion leader.

Dairy Leader Urges New U. S. Policies

By The Associated Press

CHICAGO, March 12 — D. T. Carlson, president of the American Dairy association, said today there must be immediate government policies "to help the American farmer save the world from starvation" in what he termed "the most critical food situation in the history of the modern world."

"The world looks to America for salvation from famine," Carlson told ADA directors in a prepared address, "and sees a nation whose milk output is dwindling; whose cows are being forced into slaughter-houses; whose sons are leaving the soil—and whose farmers are promised only more of the same kind of thinking that brought this tragedy about.

"Certainly we must share the American food that is now in such short supply. But just as certainly we must end once and for all the twisted philosophy of sharing scarcity that has caused these shortages."

WOMEN! WHO SUFFER FIERY MISERY OF HOT FLASHES

If the functional "middle-age" period peculiar to women causes you to suffer from hot flashes, nervous tension, irritability—try famous Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound is one of the best known medicines for this purpose. Also a grand stomachic tonic!

Famine Committee Pleads For Sharp Cut in U. S. Food Intake

By The Associated Press

WASHINGTON, March 12 — The best fed nation in the world heard a plea today to cut its food consumption by 40 per cent in wheat and 20 per cent in fats to help save a half-billion famine victims overseas.

The appeal of President Truman's famine emergency committee said such a volunteer effort was needed for the next 120 days to tide the hungry abroad over "a terrible four months until the next harvest."

The committee offered almost two-score suggestions on how the public could cooperate in the food-conservation campaign. They ranged from a 10 per cent cut in the weight of bakers' bread to topless sandwiches and open-faced pies.

The smaller bread loaf suggestion prompted department of agriculture officials to say that no lower price will result to consumers. They explained that the saving of ingredients per loaf will be small individually, and that the program will involve a definite reduction in the total output of bakeries.

The appeal to respond to a "great human cry" for [illegible] was issued by the famine committee last night. "The world faces a gigantic emergency of famine among 500,000,000 people due to war exhaustion of agriculture and drought," the statement said.

A short time earlier, the agriculture department reported prospects continue to point to a near-record crop of winter wheat in this country, with a yield of 751,000,000 bushels indicated. The record was 739,000,000.

The department also reported a record of 187,000,000 boxes of citrus fruit production was expected this season. But on the gloomy side, it asserted that the "end of the period of world scarcity of sugar" was indicated. It said the shortage may continue into 1947.

How Sluggish Folks Get Happy Relief

WHEN CONSTIPATION makes you feel punk as the dickens, brings on stomach upset, sour taste, gassy discomfort, take Dr. Caldwell's famous medicine to quickly pull the trigger on lazy "insides", and help you feel bright and chipper again.

DR. CALDWELL'S is the wonderful senna laxative contained in good old Syrup Pepsin to make it so easy to take.

MANY DOCTORS use pepsin preparations in prescriptions to make the medicine more palatable and agreeable to take. So be sure your laxative is contained in Syrup Pepsin.

INSIST ON DR. CALDWELL'S—the favorite of millions for 50 years, and feel that wholesome relief from constipation. Even finicky children love it.

CAUTION: Use only as directed.

Woodruff, president. ...ne complicating the out... ...druff wrote, is the ... 14 non-operating labor ... demanded an increase ... per hour in basic rates, ... operating unions are ... a flat increase of $2.50

...e face of higher wages ...erial costs, the railroad's ... revenues dropped 11 ... from $156,720,899 in 1944 ...91,426 in 1945, the report ... The percentage of return ... upon the investment in ... equipment property was ... 3 per cent.

...paring the same two years, ...ng expenses mounted 8.9 ... from $109,122,118 to ...1,139; of which the expense ...taining roadway and ...res increased 7.9 per cent ...56,836; equipment main... ...tenance increased 20.7 per cent or $5,540,891; and transportation expense 1.1 per cent or $629,197.

Wages totalling $64,489,000 were paid in 1945 and now represent 46.01 cents per dollar of income.

Net Income Per Share

Net income after all charges was $5,797,185 equivalent to $1.54 per share of common against $7,860,157 or $2.30 per share in 1944. The net income for the year represents 4.1 per cent of gross income.

On the optimistic side Mr. Woodruff pointed out that the railroad's long and short term debt showed a further substantial reduction. In Dec. 21, 1941, the day preceding the Erie's release from bankruptcy, the long and short term debt was $299,000,000. On Dec. 31, 1945, it was $188,000,000, a reduction of $111,000,000 with consequent reduction in interest charges.

Fixed interest charges amounted to $5,682,158 in 1945 or $8,864,552 less than the last full year prior to reorganization. With the refinancing accomplished during the last year it is expected they will be under $5,000,000 in 1946. The total of fixed charges and contingent interest will be less in 1946 than were the fixed charges alone in 1941 on the basis of the plan of reorganization.

Emphasis was also laid by Mr. Woodruff on the continued improvement of the road and its facilities. Among the major improvements he reported that the six 5,400 horsepower Diesel freight locomotives received late in 1944 had performed with entire satisfaction; that the Diesel service shop in Marion had been completed and put into operation; that passenger stations are being remodeled and modernized; and that a new 17-ton Hulett ore unloading machine is being installed at the road's Cleveland ore docks.

He also outlined extensive new equipment orders which had been placed at an estimated cost of $12,500,000, which includes seven 4,500 horsepower Diesel passenger locomotives, 2,600 new freight cars of various types, new sleeping cars, and remodeled through-line passenger coaches.

Passenger Equipment

The passenger equipment, he said, powered by the new Diesel locomotives will be placed in service on all through-line passenger trains between Jersey City and Chicago, reducing the overall passenger train schedule by some two hours.

Mr. Woodruff in his report recommended passage by the senate of the Bulwinkle bill, which would give the interstate commerce commission power to approve or disapprove the rate making practices of common carriers and would afford relief from the operation of anti-trust laws. Similar legislation respecting air lines and water lines has already been adopted.

The introduction of this bill was the result of the anti-trust suits brought against the railroads by the department of justice and the state of Georgia, attacking the cooperative methods of rate making through long established rate bureaus and associations. It was pointed out that the discontinuance of these methods would result in lack of uniform rates and would create a chaotic rate condition not only for the railroads but for shippers and the public.

Following the New Jersey supreme court decision in June of 1945 on the question of disputed railroad taxes, the Erie made additional payment to New Jersey amounting to $2,330,765.81.

The report stated that during the year, 46 new industries have been located on the Erie system which would produce an estimated annual revenue of $760,000. The great majority of the plants which were built or expanded for war production will be retained by the present occupants for peacetime operations. The present demand for buildings far exceeds the available supply.

BRUCE STREET DIES AT RICHWOOD HOME

Funeral of School Custodian Set for Thursday.

Special to The Star

RICHWOOD, March 12—Bruce Street, 69, custodian of the Richwood grade school building, died at his home here about 1 p. m. yesterday. He had been ill since Thursday.

Born Jan. 26, 1877 in Richwood, he was a son of L. L. Street and Sarah B. Livingston Street. March 26, 1901, he married Eva Howison in Prospect. She died Jan. 30, 1945. Surviving are two children, George Street and Mrs. Harry Sunday, both of Richwood, and a sister, Miss Nell Street of Richwood.

Funeral services will be conducted Thursday at 3 p. m. in the Winter funeral home here by Rev. E. W. Brewster, pastor of First Methodist church. Burial will be in Claiborne cemetery. Friends may call at the funeral home.

Programs on the Air

Lucy Anne Polk, vocalist featured on Kay Kyser's "College of Musical Knowledge," has been signed to appear in two RKO pictures with Kyser and his orchestra.

Marquis Childs, Washington columnist, will be at Raymond Swing's ABC microphone March 14 and 15 at 7:15 p. m. while Swing is in Winter Park, Fla., as one of the speakers on the "Conference of World Government" under sponsorship of Rollins college. The conference will aim to agree upon and recommend the development of world government strong enough to assure effective control of the atomic bomb.

• • •

If the U. S. navy permits, the major radio networks will send five correspondents each to the observation area of Bikini for the atomic bomb test the middle of May. NBC, at least, has made tentative plans to place men on the ships carrying the press, UNO and congressional observers, and the communications ship. The fifth reporter is to be in an airplane and will participate in a pool broadcast with the other network's representatives.

• • •

Eamon De Valera, prime minister of Ireland, will make one of his rare radio broadcasts on CBS' "A Time for Reason" St. Patrick's day.

Tuning tonight: NBC—8 Follies of 1946; 9 Amos and Andy; 9:30 Fibber and Molly; 10 Bob Hope. Sonny Tufts; 10:30 Red Skelton... CBS—7:30 American Melody; 8:30 Joan Blondell in "Next Time We Love"; 9 Inner Sanctum, "Strands of Death"; 9:30 This Is My Best; Drama...ABC—8:30 Dark Venture, drama; 9 Guy Lombardo music; 10 Concert Time; 10:30 Hoosier Hop...MBS—8 Nick Carter; 8:30 the Falcon; 9:30 American Forum "War Powers Act."

• • •

Boy Pleads Guilty To Part in School Damage

A 19-year-old LaRue boy, one of four charged with malicious destruction of property at LaRue school last Tuesday night, pleaded guilty in municipal court Monday.

His sentence was withheld pending hearing of the three other boys, now being held in the county juvenile detention home, although he agreed to pay his court costs and his share of the damage at the school.

Hearing for the three in the detention home has not yet been set. Charges of malicious destruction of property and unlawful entering were filed against them Monday by sheriff's deputies. The boys admitted breaking at least 12 windows in the school building and tearing several seats loose from the floor. They also told sheriff's deputies they had thrown rotten turkey eggs against the school house door.

OBRIAN MOURNS RESCUER

By The Associated Press

PITTSBURGH, March 12—Stephen Belanek, 40, of Belen, O., was in Pittsburgh today, mourning the death of Dr. Gustave F. Berg, well-known surgeon, who put nine delicate stitches in Belanek's heart and saved his life 27 years ago.

BEARING TRUST CASE IS SET

Price Fixing Hearing Booked April 8 as Company Denies Any Agreements.

By The Associated Press

CLEVELAND, March 12—Defendants in a federal indictment charging six companies and three individuals with conspiring to fix prices of ball bearings in violation of the Sherman Anti-Trust act will be arraigned here April 8 before Judge Emerich B. Freed.

A spokesman for one of the companies, which together were described in the indictment as producing and selling 93 per cent of the country's ball bearing output, issued a statement in Philadelphia last night denying any price fixing agreements.

The statement came from SKF Industries, Inc., declaring "SKF does not agree with competitors on prices and makes no attempt to fix prices by agreement. As far as we know, there are no price fixing agreements in the industry."

Cites Competition

It also declared "the bearing industry has in the past been one of the most highly competitive industries in the country. It is likely that competition will increase even further in the post-war period."

Other companies named in the indictment were General Motors Corp., Detroit; Marlin-Rockwell Corp., Jamestown, N. Y.; Fafnir Bearing Co., New Britain, Conn.; the Federal Bearing Co., Inc., Poughkeepsie, N. Y., and the Norma-Hoffman Bearing Corp., Stamford, Conn.

Individuals indicted were Fred G. Hughes of Bristol, Conn., general manager of the New Departure division of General Motors; Charles F. Stanley of New Britain, vice president and sales manager of Fafnir Bearing Co., and Howard Johnston of Jamestown, sales manager of Marlin-Rockwell Corp.

A special grand jury returned the indictment yesterday after an investigation lasting 13 months. It claimed the companies, termed the "big six," since about 1933 had engaged in a "combination and conspiracy to fix and maintain arbitration and non-competitive prices."

"Ball bearing prices were discussed and agreed upon," said the charge, at secret meetings held at the Yale club and the Biltmore hotel in New York, in Chicago, New Britain and other places, declaring some 60 such meetings were held during the past six years.

Count Hugo Von Rosen of Philadelphia, identified by government investigators as an officer of SKF Industries in the United States, was among the witnesses heard by the jury, as well as William Umstadt, president of Timken Roller Bearing Co., Canton, O.; and Albert Bradley, executive vice president of General Motors.

Investigators said Von Rosen is a cousin of Count Eric Von Rosen, a former brother-in-law of Hermann Goering who once led the Swedish National Socialist party. Count Hugo Von Rosen worked for SKF in Sweden, France and Germany before coming to the United States in 1940, they said.

Fire Plans Considered by Township Trustees

Marion township trustees held their regular meeting last night but marked time on their proposed contract with the city for use of city fire equipment for rural runs.

Howard McCurdy, chairman of the township trustees, said the trustees were withholding any further action pending developments of last night's council meeting.

BIRTHS

Mr. and Mrs. John E. Baer of Caledonia are parents of a daughter born March 5 at their home. The baby has been named Virginia Kay.

About half the birds on the official North American check list are sub-species which bird students can never hope to identify in the field.

QUINTUPLETS always rely on this great rub for CHEST COLDS

To Relieve Coughs—Aching Muscles

At the first sign of a cold—the Quintuplets' chests, throats and backs are immediately rubbed with Musterole.

Musterole instantly starts to relieve coughs, sore throat and aching muscles of colds. It actually helps break up painful local congestion. Makes breathing easier. Great for grown-ups, too!

Good for the Soul

HONEST confession is good for the soul. By facing up to some of the obvious realities of America's position with regard to Russia, Americans also are being forced to admit a few truths about themselves.

For example, we now know that we cannot maintain security in a troubled world by the lovability of our natures No matter how much we spend, give away, lend, or mislay, the international realists are still going to press us for advantage. We can put our best foot forward on every occasion, and chances are it will be trampled on. Americans abroad and at home—and this is a shock to national vanity—are not loved more than the representatives of other nations. This is contrary to a deep conviction, in the United States, that everyone loved fat men and Americans. It isn't so.

So, more in disappointment than anger, our government is prepared to follow a policy of disillusionment, especially toward Russia, the country which has been the chief source of disillusionment in recent weeks. Here, too, honest confessing and improvement of the soul seem likely to be byproducts. The obvious fact is that the United States, having failed to win its self-sponsored popularity contest, is rushing into another contest in which the cards are stacked against it.

This government says it is going to talk tough from now on, and is making a good start. But as every American knows, tough talk unless backed up by tough intentions and the ability to carry them out, is likely to backfire. The United States has no tough intentions. Its ability to do anything but talk has been destroyed almost to the vanishing point by demobilization. Its own affairs are in a mess. Any American who imagines these facts are not as obvious to outsiders as they are to him is in need of a little honest confession. In its present condition, the United States is only potentially a world power, which may be the main reason why it is getting shoved around in its relations with Russia.

Production First

THE congressional wind is blowing in the direction of continuing OPA, but with strings attached. The house special committee on postwar economic policy and planning has recommended "reluctantly" that the price control act be continued for another year in modified form.

Discussion has brought out this general opinion; that sudden removal of all price controls in an attempt to stimulate production and stifle inflation might defeat these worthy purposes. The cure might be worse than the disease. Therefore, in moderate opinion, it would be better to taper-off price controls in ratio to the reappearance of production. In this way, especially if the tapering-off were mandatory—that is, prescribed by formula—the price control act would liquidate itself automatically.

The catch in this proposal is uncertainty about OPA's administrative attitude. Misgivings on this point were relieved slightly when higher ceiling prices on cotton textiles were authorized. This price relief was granted in order to stimulate production. That objective can be approached without losing ground in the battle against inflation if the slight price increase granted helps manufacturers to overcome the cotton goods shortage which has been driving up prices. The same administrative attitude reflected in future decisions would convince manufacturers and businessmen that OPA was genuinely interested in their problems of producing and distributing goods. It would convince them that OPA was not the victim of an inflexible price ceiling monomania. Production is the first necessity. Prices are secondary. Prices will quit rising when the things consumers need and want again become freely available.

If the Shoe Fits

ARMY brass hats, though not noted for finesse, have threaded their way through a maze that has baffled nimbler minds. Their war department directive to weed out disaffected and subversive personnel in critical positions, if it is applied intelligently, can eliminate Communists without mentioning them by name or raising the issue of citizenship rights.

The directive puts the horse in front of the cart. Similar efforts by other government departments to weed out homegrown communists consistently have put the cart in front of the horse. By alleging communism first, then trying to prove disloyalty, these efforts have made it appear that communism, not disloyalty, was the issue. The usual result was that the suspected individual had only to prove he was not officially a communist.

The war department, in effect, has ordered that if the shoe of disloyalty fits, the wearer is not entitled to hold a position of trust. The directive obviously is subject to grave abuse if it leads to a witch hunt, but that possibility is less important than the abuse to which the war department is subject if it does not deal forthrightly with the threat of subversion.

News Behind the News

By PAUL MALLON

Pauley Storm Becomes Whirlwind of Confusion

WASHINGTON, March 12—The original confusion over the confirmation of Mr. Truman's choice of Edwin Pauley, became a maelstrom of confusions when Mr. Pauley stood up and announced no honest man could make such a retirement as had been projected for him.

The astonished members of the senate naval affairs committee trying him for the post of under secretary of navy, went immediately into a secret session in which the furniture is reported to have been damaged—and if not, reputations were, 'Twas said later the Republicans accused the Democrats of double-crossing them by failure to withdraw their own president's nominee. 'Twas also said that Mr. Pauley changed his mind and decided to fight at the instance of the President; also that the President had a letter ready, urging him not to withdraw—and these things Mr. Pauley denied.

Crump Takes Hand

To make the matter completely unsimple, such a party pillar as boss Ed Crump of Memphis had sent his legislators in here to side with the Republicans and had gone as far as to call for the scalp of party National Chairman Hannegan. But even this was only the beginning of the confusion, for the fight against Pauley was instigated by the nondescript journal of confusion, PM, and led by a former Roosevelt Republican Mr. Ickes, who lost his job for contriving thus to undermine the President, together with—last but not least — the radical Senator Pepper, fresh from Europe.

This new depth in confusions was only about a foot lower than the evidence for and against Mr. Pauley built up by PM and champloned by the Ickes-Pepper leadership to the utter demoralization of the record. Now I do not propose to take apart and analyze the drops of a maelstrom, but behind these confusions lie some gravely important discernible facts, rooted in simple common sense:

Fact one is the job of undersecretary of Navy is practically inconsequential. It is the bottom rung of the political ladder usually given to bright young men of promise, not yet dry behind their political ears. Franklin Roosevelt's Washington start was made there and also that of young Teddy Roosevelt, the son, who occupied the post entirely ignorant of his superiors' connection with the teapot and Elk Hills oil scandals The Navy can get along without Pauley and probably permanently without an under secretary, as the admirals run the department, always have and probably always will. Also the job the oil companies need, if they want what Mr. Ickes suspected, is the cabinet post of Navy and probably also the senate which has a habit of looking into these things.

Real Reasons

This circumstance would lead any reasonable analyst to the firm conviction that the real essence of the struggle was for control of the Democratic party — or the wielding of power over it and in it. Knowing the origin of the fight in the PM-Ickes-Pepper supra-party (backed further only by CIO as far as I have been able to discern), I was unable to be confused by the developments. This clan thought they caught Mr. Truman in a bad mistake, moved in on him in the senate with their customary pressures and got more backing from the Democratic than I had suspected, and from the Republicans who appeared rather gleeful at the opportunity to let the confusers confuse any and all Democrats.

The only important possibility is the final result of this basic struggle in which the Pauley case is but an amusing incident.

Just a Minute

—By Jack Tarver—

THESE ARE NO DRY STATISTICS

The treasury reports receipt of $2,369,923,518 21 in taxes on alcoholic beverages last year.

Veritably, the nation's drinkers reached a new high.

$2,369,923,518.31 in liquor taxes ...a staggering total.

Think of it: Five cents of every dollar of federal revenue was derived from this source as thirsty patriots came eagerly forward to absorb their share of the load.

Far into the night, while more complacent men were asleep in their beds, these ninety-proof friends of freedom were furthering their country's cause, striking many a blow for solvency.

Let it not be forgotten, when the roll is called of those who have made patriotic contribution, that they also serve who only stand and bend an elbow.

$2,369,923,518.31...a few more years like that and we can literally liquidate the national debt.

Daily Bible Thought

The desirability of any pathway depends on whither it leads. Prov. 1:15: "My son, walk not in the way with them, refrain thy foot from their path, for their feet run to evil."

War's Dividing Line Near

By Walter Lippmann

DURING this past week we have come to the point where it is no longer a theoretical possibility that we may fail to make peace. We are at the dividing line where it is easier to fail than it will be to succeed, where the chances of war are in sober truth greater than the chances of peace.

We are at that line in our relations with the Soviet Union where, though there is as yet no formal diplomatic rupture, the process of diplomatic negotiations is believed in less and less seriously.

Among great powers that is a most critical point. For it once it is passed, if once the conviction becomes fixed that no vital issue can be settled by negotiation, diplomacy after that consists in preparing for war.

Diplomacy no longer expects to settle issues but only to postpone them, to gain time, to gain more advantageous position, to mobilize opinion, to mobilize the wavering and uncertain nations, to mobilize the more powerful coalition.

We are at that line. We have not crossed it. But we are right at it. If we drift across it, or are pushed and pulled across it, we shall not have war next week, next month, and very probably not even next year. Nevertheless, the paramount consideration here and abroad, avowed or unavowed, in all policy, domestic as well as diplomatic and military, will be in effect the preparation for war.

On Down Grade

We shall be on the slippery downward slope on which it is increasingly difficult to stop, where at the bottom there is world-wide international and civil war.

It is evident that the United States is not able alone to decide the issue of war or peace. At the best the United States can only control its own actions with a view to influencing the actions of other governments. But the chances of peace, such as they are, now depend primarily upon the capacity of the United States to exert its power and influence at this critical and dangerous point in international affairs.

If for any of many reasons—because of our own inertia and inexperience or because of intervention from abroad—we fail to manage our own participation, there will remain no likelihood of a peaceable settlement. There will then be no peace-maker among the powers, none to which the making of peace transcends in importance the defense or the creation of empire. The mediating and stabilizing influence of the only great power which has no special vested interests in Europe and in Asia will have been discounted, nullified and dissipated.

Nothing, therefore, is so immediately urgent as to make it certain and manifest in the councils of the nations, in the U. N. O., and alongside of it, that the independent judgment and initiative of this country have not been lost or renounced. If that is not done, the basis of a negotiated settlement between the Soviet Union and the other power will be gone.

To any successfully negotiated settlement of the conflict between the Soviet Union and China, the Soviet Union and the British Empire, the independent presence of the United States is indispensable.

Truce

If, as Mr. Churchill has proposed, we renounce an independent role and enter a coalition against the Soviet Union, there will not be a negotiated settlement. There will be at best a truce, an armistice before a war, which will last only as long as the race of armaments and the deadly political competition throughout Europe and Asia, which it must and will inaugurate.

Our own role is exceptionally difficult in that we are not dealing only, as Mr. Churchill implied, with the expanding power of the Soviet Union The real problem for us is not the absolute strength of the Soviet Union but its strength relative to that of Europe, the Middle East and China.

Russia is a big power, of course, but what makes Russia so unmanageably big at this moment are the weakness and division of China, of the British Empire, and of Europe.

We dare not miscalculate the balance of power. There would be no serious problem in Manchuria if China were united, not in a condition of civil war, and able, therefore, with loyal Chinese forces to deal with the Japanese armies and reoccupy Chinese territory. Nor would the position in Iran and Turkey be what it now is if India were a military asset and not a military liability of the British Empire.

What has shaken the British position in the Middle East is that India, which if the empire were a going concern would be the greatest reservoir of imperial power, is in fact an exhausting drain upon the British power.

India has some 400,000,000 people, and it is the leading industrial nation, apart from Russia, on the continent of Asia. If India could be counted upon, there would be a wholly different balance of power in Iran and Turkey, there would be no such vacuum as now exists, and no question of Russia's acting alone and refusing to negotiate.

These are among the great, primary, controlling realities of the world situation and, as they are perfectly evident to the Russians, we shall not be serving our own

(Turn to LIPPMANN, Page 7)

SORRY, WE HAVE NO HOME FOR YOU

From News of Other Years

TEN YEARS AGO

It was Thursday, March 12, 1936.

Englishmen were indulging in what had become a national pastime—picking a bride for Edward VIII, bachelor king of England. Mentioned were Princess Eugenia of Greece, 26-year-old cousin of the wife of Prince George, Juliana, the plump princess of the Netherlands, Princess Cecelie of Germany and Grand Duchess Kyre of Russia. The King's income was estimated at more than $1,000,000 annually.

The thermometer reading toboganned from a high of 40 to 24 during the night and snowfall measured half an inch.

Edwin H. Shuman of Richwood was selected as one of two Ohio State university students to represent the Central Ohio district in an all-state debate. The question to be debated was: 'Resolved, that the state of Ohio shall adopt a one-house legislature."

Mrs. Fanny Benson, Mrs. F. J. Spain and Miss Alice Gertrude Smith were associate hostesses when Captain William Hendricks chapter, Daughters of the American Revolution met at the home of Mrs. J. E. Smith of West Church street. Miss Fayette Jacoby gave a paper, "Anecdotes and Traditions of Early Marion County."

A $10,000 stadium with a seating capacity of approximately 1,300 was a major business matter discussed by members of the Marion softball commission at a meeting held at the Y. M. C. A.

* * *

TWENTY YEARS AGO

It was Friday, March 12, 1926.

County Prosecutor L. E. Harvey summoned Jacob Nesbitt, husband of the Troy, O., murder victim, to his office for questioning.

Germany was reported near victory in a dispute over whether it should be granted a place in the League of Nations. Favorable action was expected to be taken by all powers signatory to the Locarno pact.

A Washington dispatch reported that figures announced by Secretary of the Treasury Mellon indicated there would be a substantial federal fund balance at the close of 1927.

James S. Madden, 34, of Columbus, was found guilty of participation in the holdup of two C., D. & M. messengers here on Jan. 11. This completed trials following the robbery with all four men convicted.

J. Wesley Thew, 72, died at his home in Caledonia.

The Marion Y. M. C. A. volleyball team won the northwestern Ohio district tournament in Findlay and was headed for the state tournament. Making the trip to Findlay were R. B. Hume, Ernest Seifert, Robert Stief, L. W. McDaniel, Guy Hulse, L. K. Powell, Roy Rice, L. C. Stang, Russell Snare, B. K. Hill and John H. Clark.

GI's Want To Know

By The Associated Press

LINCOLN, Neb. — University of Nebraska professors say they are "kept on their toes" these days because veterans in their classes ask questions more freely than the average college student and demand proof of statements made by their instructors.

"They have injected a new spirit into my classes by stimulating lively discussions, and when they want to know something they ask intelligent questions which go right to the core of the matter," said Prof. J. P. Senning of the political science department.

Making of Foreign Policy

By Raymond Moley

THE notes addressed by Secretary of State Byrnes to the Soviet deserve close attention, because they are, in effect, the beginning of a definitive American policy in our relations with Russia. Foreign policy cannot be made all of a piece. It must be built brick by brick. In this case, generalities are not in order until all the pieces are laid together and the Soviet replies are laid beside them. At that time, we may assume that the President or Secretary Byrnes will sum up in a general statement what this country will expect in the way of stability between Soviet Russia and her numerous neighbors.

Opinion in the state department is that the UNO train is waiting and all nations should get aboard. The Soviet has its ticket bought, and the length of its trip will be predicted in accordance with the amount of luggage it carries.

The weeks immediately ahead will tell a lot. It is reported that the Supreme Soviet is, very soon, to have its first meeting since the recent election. There will be plenty of speeches. There are hints, but no concrete evidence, that there are stresses and strains within the Soviet government. This may mean pressure on or against Stalin, who during the war leaned toward the western powers. Pressure on Russia from outside powers, especially the United States and Britain, may influence that situation. It may strengthen the isolationist group in Russia and lead to further deterioration of relations with the West.

The UNO Security Council meets again in New York this month, with Russia represented by Ambassador Gromyko.

The demand by the Soviet government that Turkey restore to Russia the Kars-Ardahan region throws another issue into the murky waters of Turkish diplomacy. It will require very careful negotiation, directly, it is hoped, among the Soviet, Britain and the United States, as well as with Turkey.

Recalls Crimean War

This problem and its possible consequences recall the comedy of errors and double talk that led to the Crimean War in 1853 and 1854. That war, as history clearly shows, was wholly unnecessary. It was unprofitable for all concerned. Britain at the beginning had a somewhat detached interest, but was ultimately maneuvered into being the leading opponent of the Czar. Confusion of purposes marked all the preliminaries, because, for the most part, negotiations passed through Turkey. In the attempt to save various official faces, all possibility for a peaceful adjustment was lost. Fresh, firm and direct dealing might have saved thousands of lives.

The present situation calls for a genuinely new approach in diplomacy. The secrecy imposed after the Big Three meetings in wartime was a war measure. That need is no longer with us. The stakes are to great for further secrecy. Let's have all the cards on the table and, until they are, let's be wary of generalities.

The Policeman

(From Canadian Police Gazette)

If he's neat, he's conceited. If he's careless, he's a bum. If he's pleasant, he's a flirt. If he's brief, he's a grouch. If he hurries, he overlooks things. If he takes his time, he's lazy. If you get pinched, he had it in for you. If he's energetic, he's trying to make a record. If he's deliberate, he's too slow to catch cold. If you strike him he's a coward. If he strikes you back, he's a bully. If he outwits you, he's a sneak. If you see him first, he's bonehead. If he makes a good catch, he's lucky. If he gets promoted, he's got a pull. If he doesn't, ah, what's the use?

Unbroken Protection

One aspect of "tropicalization" in the scientific war we waged in the Pacific was the use of instruments permanently sealed in glass and metal cases as protection against the high humidity. For success in this joining of dissimilar substances the materials need to have the same coefficient of expansion. Oxidation of the metal surfaces made the glass stick tightly. In some applications a jet of powdered glass was blown onto the metals to be covered. Special gaskets were developed for servicing the protected instruments.—O.S.U. Science and Appliance.

CROSSTOWN By Roland Coe

"This won't be ready for occupancy for at least five hours. Better get in line."

The Once Over

By H. I. PHILLIPS

The Dizziest Oyster

AYCOCK BROWN of Beaufort, N. C., according to Ray Camp, that he has the dizziest oyster in the world. He took it from the propeller of a pump where it had been making 150 revolutions per minute for eight months.

* * *

Mr. Brown's claim is nonsense. Elmer Twitchell, man with wide experience with dizzy oysters, can name scores that make this North Carolina oyster seem a bush leaguer.

* * *

"I'll never forget one oyster, Whirling Dervish II," said Elmer. "This oyster had become fascinated to the propeller of a speed boat. She had been running all summer and through the August races. I took her off the propeller after hauling the boat out, and she was still in such a state of concentrated dizziness that she was still turning over at 2,200 per minute when she dropped on the ground.

* * *

"In fact, spinning at that pace this oyster zoomed back into midstream, roared out over the river, took to the air and flew to Charles Island four miles away, where she crashed into a tree, boring a hole three-quarters through the trunk.

* * *

"But for real dizziness among oysters I once had two that were all-time champs," Elmer continued. "They were off the propellers of a PT boat. When I scraped 'em off they were still spinning at such tremendous speed that they burrowed into the concrete runway of the shipyard. I had a tough time overtaking 'em. I named 'em Rocket Boy Junior and Whirling Belle.

I planted them both in Long Island Sound here They mated and their progeny are known to this day as Whirling Dervish Bluepoints.

* * *

"No oyster stakes are needed to mark the beds. You can tell where they are by the commotion in the water, which is in a perpetual white froth during the oyster season.

* * *

"How do you ever market these oysters?" we asked.

"As soon as we get 'em off the boat we soak 'em in a solution of bicard, aspirin and spirits of ammonia," said Elmer. "That levels 'em off to about 300 revolutions a minute. But they never stop spinning. Ship 'em in oyster tubs and the tubs revolve throughout the trip."

* * *

"Are the oysters hard to handle individually?" we pressed.

"Oyster openers have to wear blindfolds and strap themselves to the oyster bar or they would get dizzier than the oysters," he replied. "They're no good in oyster cocktails. They scatter horseradish for miles."

* * *

"How about oyster stews?" we inquired.

"The Whirling Dervish Bluepoints are O K in a stew if the milk is plenty hot. But they whip up such a lather that the stew looks like creamcake," concluded Mr. Twitchell.

"I have an old magic book (about 1895) which exposed all tricks. It is a professional magician's book. Will swop for four new pairs nylons size 10. (N.Y.) J909"—Yankee Magazine.

* * *

Don't be silly! You'll need everything a magician has got if you are determined to get nylons.

A nationwide phone strike was averted and it's pretty much of a surprise to the public which has become accustomed to having noisy strikes settled.

Ima Dodo, by the way, think those "long lines" operators are the tall stately ones.

Many a subscriber went to the phone this morning and getting an answer exclaimed, "Oh, central, you're still there!"

(Released by The Associated Newspapers Inc.)

Keep Smiling

By Truman Twill

Then there is the mystery no one solves—the laughing people who pose for news photographers. It's time to look into their case again.

The public keeps wondering what's so amusing. The stuff it hears isn't half that funny, not even the stories told at mixed parties.

What makes negotiators, spokesmen and assorted flunkies in strike conferences grin from ear to ear? Is there anything rollicking about a strike?

What tickles big shots at turning points in history and makes them think the common people will feel better if everybody is roaring with laughter?

Where does a baseball player cavorting in Florida get the idea his fans want to see him enjoying himself, instead of buckling down to the serious business of lifting his batting average above 240?

Now that we mention it, what does President Harry Truman, the most uproarious laugher since Teddy Roosevelt, find to laugh about in the mess he's in?

Who thought up the notion the public looks better if wounded veterans always are shown smiling pleasantly over their missing arms and legs?

Why must all English war brides have their pictures taken smiling? Surely some of these girls must be homesick and wondering how it happened to get transplanted among wild Indians.

Shades of Tokyo Rose, they've even got the Nips talked into looking pleased for the photographers. What have the Nips got to fee. Grin about?

When the head man for the American Legion and the head man for Veterans Administration meet, after knifing each other at long range, what do they do? One guess. Malcolm. They bare their bridgework pleasantly for the photographer—and next day the knives are out again.

Is it a dear old lady of 97 with a broken leg? Is it a little boy whose dog has been mashed by a truck? Is it a housewife who has survived a gas explosion in the kitchen, an aviator whose plane has crashed, a widow whose husband has been manhandled by the pickets or cops?

Is it Yamashita, Goering or some premeditated murderers of our domestic manufacture on his way to the gallows and electric chair? Is it the speaker of the evening, the chairman, the thug who has been run down by the police, the judge, the farmer? Is it Superman? How about a big smile for the photographer! The public wants you to look pleasant. Why? No one knows why. It's just one of those ideas that grew. Ho, ho, ho. Ha, ha, ha. Smile, darn ya, smile.

Aussies Receive Free Hospitalization

CANBERRA, AUSTRALIA—Patients of all income groups in public hospitals now are receiving free treatment in four Australian states.

Cost is being borne by the commonwealth government by grants to state governments which administer the scheme. Later the scheme will be extended to cover part payment of treatment in private hospitals.

Butter Lines Need Walkie Talkies

TAUNTON, Mass.—A woman called the order department of a grocery concern with this request: "Will you please look out your front window and see if there is a butter line in front of the butter store?"

...ised School Plan Discussed

...ntinued from Page 1)

...f the plan for con-

...t on Program

...rogram, Harold J. ...resident and gen... of the Marion... Co., reviewed what ...with the airport ... an issue passed last ...

...that the city had ... the amount of $1,... average interest rate ... The city already ...derable engineering ... airport and expects ... to the 644-acre tract ... federal government ... says.

...neering work then ... to put the proj... to present to the ... authority for ap...

...to the sewer program ...that work was ready ... Clinton and Niles ... and that council ... the employment of ... engineer to draft and ...citywide improvement

...speakers dealt with the ...school building program, ...ared on the program ...lowing order:

...rd F. Guthery—Attorney—...s We Need New Schools" ...ghery declared the city ...outgrown its school system ...the average age of the ...buildings was 40 years. ...e years in which the ...were erected as follows: ...al building, 1860; Green... 1880; section of Central ...facing Center street, ...ilver street, 1893; Forest ...1899; Oak street, 1907; ...Heights and Mark street, ...ney and Pearl buildings, ...Glenwood, 1915; Harding ...ool, 1915; North Main and ...1921; Edison, 1930; ...Washington, 1931.

...B. Tway—Manufacturer ...abilitation": Mr. Tway ...ed that most of the build... old and that electrical ...systems need to be re... This is one of the projects ...dized in the improvement ... He also pointed to the ...modernization of Silver ...Oak street and the con... of community rooms at ...uildings and Olney ave...

Philomen Gregg—Teach... Junior High school on ...tate Street:" She pointed ...advantage to children in ...th part of the city in hav... new and modern junior ...in that section. The pro... North State building, she ...out, will be in a safer part ...ity and will take children ...the downtown congested ...With the exception of Sil... the proposed new build... be nearer to all other ...uildings than the present ...buildings. Children from the Silver street district will have a block and half farther to go than they now go to Central, she said.

Cecil W. Gabler and A. C. May—School Principals—"The Vocational Program:" They discussed the possibility of an expanded vocational trade school program at the present Harding buildings when the proposed new building is erected.

Mr. Gabler declared that each fall approximately 600 first grade children enter school here but that only 300 on the average complete their course and graduate from high school.

Many of the 300 who drop out of school do so, he said, because they find nothing in the courses now offered to fit their particular needs. He said the vocational program now offered is limited but pointed to the possibility of offering a more complete course when the Harding building is available.

Mr. May discussed vocational programs in other cities and cited a large number of trades in which training is offered both boys and girls.

H. Alfred Donithen—Attorney—"The New Junior-Senior High School and Site:" He pointed out that the athletic field site was bought by the board of education 18 years ago. He said the site might not suit everyone in Marion but he declared that under the present circumstances it is the best available.

Dr. A. J. Wagner—Dentist and Coach—"The New Gymnasium:" Marion is handicapped in its school sports program, he said. The city should have this proposed new auditorium in the new high school on the athletic field site, he added.

Robert T. Mason—Radio Executive—"The New Auditorium:" He pointed to the unsatisfactory and inadequate facilities for high school entertainments in present school auditoriums. The new auditorium to seat 2,500 will be a great benefit to the school pupils but will serve as a cutrural center for the entire population of the city, he said.

Francis Huber—Banker—"Relative Cost of the Program: "School bonds now are going on the market at about one and a quarter per cent interest he said in pointing to the advantage of providing funds now for the program. He compared this with the 4½ to 6 per cent interest rates the schools paid on bond issues for school improvements in other years. Bond interest rates are now as low as they are likely to be, but before long they are likely to go up. Low interest rates will offset present increases in building costs.

Harry Mounts—County Auditor—"The Tax Picture:" In 1931 Marion had a tax rate of $25.30 for each $1,000 of property valuation. The present rate is $16. The airport bonds, sewer bonds and proposed school bonds will add about $4 a thousand to the tax rate to bring it to $20, still $5.30 below 15 years ago.

Henry Krigbaum—Businessman—"Relationship of the Schools to the Future of Marion:" As a former president of the Chamber of Commerce Mr. Krigbaum discussed some of the problems in bringing new industries here. A system composed of modern school buildings is one of the best inducements a city can offer new industry, he said.

Robert Rush—War Veteran—"The Veteran's Angle:" He declared that in their travels veterans often found cities more progressive than their own home towns and that in doing so they resolved to do something to help bring their own communities up to date when the opportunity was offered. The Marion school program offers us a chance to do that and we want to help, he concluded.

T. D. Bain—Teacher—"Advantages of Modern School Housing:" of teachers in Ohio and said the of teaches in Ohio and said the available teachers will go to the cities that offer the best in teaching conditions and equipment with which to work."

Rev. Claire T. Crenshaw—Minister—"Cultural Advantages of a Good School Program:" Citing the loss of population by Marion in the 1930-1940 period he said the city would have to offer some attractions to bring people here if the city is to grow. In urging support of the school program as a means of doing this he offered the Biblical quotation, "Why sit we here and die," as reason for doing something now.

OFFICERS FOR NEW YEAR CHOSEN BY WHITE SHRINE

Mrs. Mary Fisher Elected Worthy High Priest.

Officers for the new year, headed by Mrs. Mary Fisher as worthy high priestess, were elected when Marion Shrine No. 15, White Shrine of Jerusalem, met Monday night in the Masonic Temple.

Chosen to serve with Mrs. Fisher for 1946-47 were: Arthur B. Creasap, watchman of shepherds; Mrs. Laura Eicher, noble prophetess; John Beer, associate watchman of shepherds; Mrs. Anna Helser, worthy scribe; Miss Hortense Fies, worthy treasurer; Mrs. Laura Morral, worthy chaplain; Mrs. Geraldine Vail, worthy shepherdess; Mrs. Esther Bear, worthy guide; and Mrs. Rose Helwig, chairman of the White Shrine circle.

Installation of the newly-elected officers will be held April 8 at the Temple. Annual reports were also given by the officers and committee chairmen.

White Shrine Sewing Circle will meet Wednesday at the Temple with a covered dish dinner at noon followed by the meeting. The Past High Priestess association will hold election of officers at a meeting Tuesday afternoon, March 19.

The last ceremonial in which the present officers will participate will be conducted March 25, when a large class of candidates will be initiated.

OHIO WOMAN ADMITS AIDING ESCAPE OF 3

By The Associated Press

SPRINGFIELD, O., March 12—Sheriff J. Arthur Shuman and Prosecutor Glenn E. Detling announced today they had obtained a written statement from Mrs. Alberta Lambert, 20, that she smuggled a dozen hack-saw blades into the Clark county jail which were used by three men in escaping Sunday.

The three—Wilbert Good, 21, of Springfield and Vincent McFarden, 35, and Edward Blackwell, 28, both of Cincinnati—still are at large.

The sheriff said Mrs. Lambert related she had the blades wrapped in paper and carried them in her purse. She said she gave them to Arthur Whetstone, 21, of Springfield, being held in the jail on an assault charge. Whetstone was quartered on the same floor of the jail with the three men who escaped.

The officers gave no indication of why Whetstone did not make an escape attempt.

Mrs. Lambert was ordered held in jail pending the filing of charges against her.

"Africa Party" Held for U. B. Children

An "African party" was held in the Community House of the United Brethren church Saturday for the children who had taken part in the foreign missions project sponsored by the U. B. Sunday school children's department.

The afternoon was spent with games and contests with contest awards going to Florence Burkepile, Jerry Jones, Gary Murray and Jean Gantt.

A short service dedicating the children's glad chest offering included remarks by Jerry Jones and Florence Burkepile and scripture by Gary Murray and a song service led by Mrs. Juanita Jones and Miss Gwen Coler.

Members of the Women's Missionary association served the refreshments at a table decorated with African miniatures and favors. Those present were Steve and Brent Nickol, Sally and Florence Burkepile, Jack and Jean Gantt, Gary Murray, Mary Margaret Williams, Ruth Ann Miller, Bill McCrea, Franklin Finley, Jerry Jones, Robert and Skipper Tuttle, Mrs. Owen Miller, Mrs. Homer Hufford, Mrs. Wayne Murray, Mrs. Juanita Jones, Mrs. Charles Williams, Miss Gwen Coler, Miss Eleanor Gandert and Mrs. Alva Gantt.

Clarence H. Bowers Dies at Hospital

Special to The Star

UPPER SANDUSKY, March 12—Services were to be at 2:30 Tuesday from the Bringman & Co. funeral home for Clarence Howard Bowers, 53, a former resident of Upper Sandusky, who died Saturday night at Bucyrus hospital where he had been a patient for seven months.

Surviving are one brother, Captain E. R. Bowers of the Army; and two sisters, Mrs. Harry J. Secoy of east of Upper Sandusky, and Mrs. Paul Gillen of Belle Center.

Russia Reaches Into Far East with Vast Railroad Projects

"Budet kak skazal Tovarich Stalin!"
(It will be as Comrade Stalin says.)

That, says Eddy Gilmore, Associated Press bureau chief in Moscow, was the Russian reaction to their leaders' recent speech outlining his great plans for the next 15 years.

"I remembered some of those orders of the day that Stalin had issued when the Germans were at Moscow; when the Germans had the Red Army pinned against the banks of the Volga at Stalingrad . . . Here then was another order of the day . . . An order to this giant which has one sixth's of the earth's surface. . . . It would be well for any American safe in the complacent belief that America sets the industrial pace and always will to read and reread . . . says Gilmore.

• • •

This is the first of a series of stories in which are outlined some of the principal things the Russians are doing, or plan to do, to make their dream come true—how they hope to become the world's greatest industrial nation. The attention the Soviet is giving its Far East is implicit in this description of railroad developments.

• • •

By EDDY GILMORE

MOSCOW—The railways were one of the tremendous handicaps of old Russia. An observer once described pre-Soviet trains as "splintered matchboxes drawn by battered samovars over two ribbons of rust." Saddled with a railway system which drew forth such comment, the Bolsheviks have gone a long way. But they are going much farther.

New lines have been built during the war. Others have been completed in recent months and plans are announced almost weekly about new projects. In 1937 the USSR had 53,000 miles of railway compared with 236,000 in the United States. That figure of 53,000 has been considerably upped in the last nine years.

Sweeping Projects Set

Sweeping projects are under way in distant Kazakhstan, largest of the Soviet republics except old Russia itself, abundantly rich in grains, minerals and fuels. Kazakhstan occupies a vast portion of the southeastern section of the Soviet Union, extending from the eastern border at the corners of Mongolia and Sinkiang almost to the Volga below Stalingrad, and encompassing the northeastern shore of the Caspian sea.

A new line is to be laid between Semipalatinsk and Kulunda, which will considerably shorten the road from southern Kazakhstan to Pavlodarschna connecting the Alma Ata region on the Chinese frontier with the Trans-Siberian railway.

Another great line will be the Mointy Alma Ata—a span of rails which will run from Mointy around the western shore of Lake Balkhash connecting the Trans-Siberian at Shu and shortening by four times the way of Karaganda coal and metals to the large cities and towns of southern Kazakhstan. Direct communication will thus be established between Alma Ata, Balkhash, Karaganda and North Kazakhstan, whose administrative center is Petropavlovsk, 325 miles east of the Urals.

Plans are also ready for a vital branch line in the rich grain district of Taldy-Kurgan, and Reevka and Sarkand, all of which lie along the northwestern slopes of the Dzhungarski Ala Tau mountains separating the USSR from Sinkiang. This railway will connect with the Turksib system at Karatal midway between the mountains and Lake Balkhash.

Reach Into East

The Far East has come in for, and will come in for, more railway systems. By October of last year Soviet engineers had got into operation the east-line across the top of maritime territory running from Sre One Tambovskoe on the western bank of the Amur 50 miles north of Komsomolsk, thereby affording a connection across the northern maritime between the Gulf of Tatary and lines running westward into Russia proper.

Traffic between Harbin (Pinkiang) and Vladivostok began Oct. 29, and service began Dec. 1 on an important southern line of the Chinese National railway between Harbin and Mukden (Shenyang).

The other important link to this system between Harbin and Chita on the Trans-Siberian was ready for business Nov. 15, 1945.

One of the most ambitious of the new undertakings scheduled for immediate work is the electrification of that part of the Trans-Siberian lying between Omak and Novosibirsk. This 390-mile stretch carries some of the heaviest traffic of the Trans-Siberian.

The Russians, in addition to projects in Kazakhstan, have not been idle to the northeast in the Kemerovo region. Here they completed in July 1945 a line between Abakan on the mighty Yenisei and existing lines, 135 miles southeast of Novosibirsk. The eastern terminus of this railway is just across the river from Minusinsk from whence a good highway runs into lovely Tannu Tuva.

Connect Coal Fields

While planning is underway for various sections of Kazakhstan as previously mentioned, the Soviets were able last August to finish a line between Akmolinsk and Nikolaekskoe in the Akmolinsk district of Kazakhstan, giving access to the new coal fields in the Nikolaevskoe region by joining up with the regular systems which run between Akmolinsk city westward to Chelyabinsk and Sverdlovsk in thethe Urals, where some of the country's biggest heavy industries are located.

In western Kazakhstan, Soviet engineers have completed a long planned line, connecting Gurev, the oil refinery city at the northern head of the Caspian sea, with the great ribbon of track which runs from Moscow to Tashkent in southern Kazakhstan. The junction point is the town of Kandagach, 400 miles northeast of the Caspian.

At Gurev a line already existed to Astrakhan, so now there is a connection between the Moscow-Tashkent system and the Caspian and Caucasus beyond. This railway to Gurev was opened August 8, 1945.

Also about this same time, a whole set of piecemeal construction was finished which linked Kazan on the Volga with Kotelinikovski, famous as the scene of some of the biggest tank battles of the second World war. The Kotelinikovski lines are southwest of Stalingrad.

This line, now open, runs from Kazan southward through Syzran, across the Volga at Khvalynsk, crossing the Moscow-Tashkent trunk near Uralsk then swinging southwestward through West Kazakhstan, across the Volga below Stalingrad to Kotelinikovski.

Also Active in North

Railroad construction during the war was not confined solely to the southeast, however, for considerable trackage was laid in the White Sea-Barents area.

On August 8, 1945, the Russians announced the opening of a lengthy stretch between the North Pechora river near where it pours into the Barents sea, southwestward across northern Dvina, below Archangel to the town of Samoded on the Archangel Moscow trunk. This is a 438-mile stretch through heavily forested country which in wintertime looks like the original Merry Christmas card.

Electrification is planned for large sectors of the Soviet north also and the *Moscow News* on December 8, 1945 stated that several sections between Murmansk and the place where it joins up with the Archangel Moscow trunk had been electrified. These were said to have been "the most difficult parts."

Erection of a steel span over the Lenin canal, near Belomorsk on the White Sea, was announced last August.

LETTERS FROM OUR READERS

QUESTION OF REVERENCE

Editor of The Star: I wish to offer my apologies to the Harding High a cappella choir who sang so beautifully at a Sunday school recently.

I know many of you considered the rendition of a lovely sacred piece as a reverent act of worship, not a performance to be applauded. I assure you, had you sung in the church service that these same people would have considered it worship, but they have never associated reverence with sacred numbers sung in the Sunday school.

They really did appreciate your lovely singing but, unfortunately, took an undesirable method of expressing that appreciation. There was a minority group sprinkled through the audience who would not desecrate the moment with applause.

ONE WHO CARES.

LIPPMANN

people loyally if we allow them to become obscured here.

U. S. Responsibility

To make an anti-Soviet coalition work, to make it so formidable that the Russians must withdraw, the United States would have to make up out of its own resources and military man power the deficit of force which exists because of the Chinese civil war, the disaffection of India, and the devastation of Europe. That is more than we could do even if our people were persuaded that it ought to be done.

Our strength, actual and potential, is very considerable, and it may be sufficient to bring about peace if it is prudently and astutely employed. It can be *sufficient* only if it is employed to support us in the role of mediator and peace-maker who persistently and patiently keep intact the process of negotiation, never allowing a final rupture, between Moscow and London and Chungking.

It may be possible, or we may not have the resolution and wisdom to be the peacemaker, to steer the ship of state through the treacherous waters, between the Scylla of appeasement and the Charybdis of entanglement, into the calm and open sea. But if we are to fail, let us at least have tried for the sake of the dead and of all the multitudes who must suffer so much more terribly if we fail.

This tortured world must be spared another war, a war which, if it once begins, no man will know how it is to be ended. Russia cannot conquer the United States nor can the United States conquer Russia. But they can become enmeshed in a war which cannot be decided, which will go on and on as a terrible mixture of civil war, famine, and annihilation and extermination at long range, which no one could have any plan for stopping.

GIVE!

In many parts of Europe children cannot go to school because they lack essential clothing to protect them from the biting wintry blasts. A contribution of $3.75 to the Red Cross fund will provide enough material for Red Cross chapter workers to make a snow suit for a school-age youngster overseas.

HOUSE APPROVES 100 A-BOMB TEST SHIPS

By The Associated Press

WASHINGTON, March 12—The house today passed and sent to the senate a bill authorizing the Navy to use approximately 100 warships for the atomic bomb tests in mid-Pacific this spring.

The legislation was approved by a 314 to 28 roll call vote despite objections of some members that it should be held up until permanent peace is assured.

The house then proceeded with consideration of a measure authorizing the government to sell, lease or give to China another 271 surplus small vessels. They are intended to become the nucleus of a new Chinese navy.

Red Cross Collection Taken at Grange Meeting

A collection of $65 was received for the Red Cross at a meeting of Canaan Grange in the Grange hall at Denmark Thursday night. Lowell Douce was elected overseer to take place of Robert Higbsher whose death occurred recently and for whom the charter was draped. Forty-one received first and second degrees, with the degree work put on by a new all-girl degree team composed of Miss Vera Bratton, master, Miss Dora McKinstry, Mrs. Sarah Payne, Mrs. Glenna Bolinger, Mrs. Mary Douce Mrs. Betty Sayers, Mrs. Mary Peterson Mrs. Kathern Nance, Mrs. Jenella Gilson, Mrs. Mildred Pangburn and Mrs. Addie Groves. The team presented a drill at the close of the degree work.

BIBLE CLASS SPEAKER

Dr. Hastings Eells, professor of history at Ohio Wesleyan university, Delaware, will speak at a luncheon meeting of the Wednesday noon Business Men's Bible class at the Y. M. C. A. tomorrow. His subject will be, "What Makes a Christian Nation." His address is one of a series by out-of-town speakers for meetings of the group here this month.

Red Cross Donation Made by Circle Here

A donation was made to the Red Cross and a program with the American Indian as a theme was presented at a meeting of Silver Cross circle of King's Daughters last Thursday night. Mrs. John Moser was hostess for the meeting in her home at 233 North State street. Mrs. O. R. Clevenger led devotions. It was voted to give $5 to the Red Cross. A paper on the American Indian was given by Mrs. Raymond Acker, and two Indian songs were presented by Mrs. C. H. Indow accompanied by Miss Maye Evangeline Lawrence. Mrs. John Probst gave "Homesickness of the Soul" from the Silver Cross magazine, and the meeting closed with the Lord's prayer in unison. The next meeting will be at the home of Mrs. R. H. Pauling.

FRANCE MAPS SPANISH DATA

Expected To Submit Fresh Evidence To Win U. S. Support Against Franco.

By The Associated Press

WASHINGTON, March 12 — France is expected shortly to submit fresh evidence on Spain to this country in a renewed bid for American support in carrying the case against Generalissimo Franco to UNO's security council.

The original French proposal drew a formal rejection from the United States, which thereby broadened the split among the permanent Big Five members of the security council. Russia has sided with France in agreeing that the United Nations agency should be given a complaint against Franco, while the United States and Britain are opposed. China has taken no stand

Latest In Series

The incident is the latest in a long series involving Soviet-American relations and bringing to light sharp differences in their approaches to critical world problems.

On another of the diplomatic fronts involving the United States and Russia, the state department yesterday made public a note denying Russian contentions that the United States was trying to play a lone hand in influencing the make up of the Bulgarian government.

Also last night the department released the text of its note to France on Spain. This communication, however, left the way open for reconsideration of the American position provided there is new evidence on which to base a case against Franco in the security council.

Spain Hits Back

LONDON, March 12—The Madrid radio, countering foreign attacks on the Franco regime, contends that Spain is "defending the rights of all other nations to their political independence" by rejecting outside pressure upon her to oust Generalissimo Francisco Franco.

RENTS

(Continued from Page 1)

in Washington, or in their own constituencies.

The rent increase was recommended by George E. Englar of Baltimore, president of the National Apartment Owners association, and Arthur D. Loppel, vice chairman of the Metropolitan Fair Rent Committee of New York.

They contended OPA has conducted a propaganda campaign, arousing tenants against owners and inciting class hatred.

In addition to a general increase in rents, the representatives of property owners proposed:

1. Exemption of all newly created housing units from rent control.

2. Withdrawal of OPA federal residential rent control from states adopting their own residential rent control laws.

3. Recognition "that an owner is entitled to a reasonable return on the fair value of his property."

More Than 100 Join Legion in Union Co.

Special to The Star

MARYSVILLE, March 12 — More than 100 new members of the American Legion were initiated at a public ceremony at the high school gym here last night. The initiation class was named the Harry A. Eaton class, in honor of the state commander, who addressed the gathering.

Seventy-five of the new members were from the local Legion Post, 25 candidates were from the Richwood Post and 10 from the Plain City Post.

TWO DEATHS PROBED

TIFFIN, O., March 12—Coroner William H. Benner today investigated the death of Clarence Long, 36, a factory worker, and Mrs. Mildred S. Wise, 30-year-old divorcee, whose bodies were found late yesterday in a parked automobile near the Sandusky river.

The coroner reported results of a preliminary investigation led him to believe the couple died of carbon monoxide poisoning caused by fumes escaping from a defective exhaust pipe.

ICE FLOES DESTROY 100 COTTAGES—Swept inshore by strong wind gusts, huge ice floes moved glacier-like on the fashionable Lake Huron beach at May City, Mich., crushing a community of cottages under a weighty impact. The gigantic floes were lifted on the shore by wind and water, tumbling cottages off their foundations. Some of the ice which piled as high as 40 feet may be seen above tearing through a cottage.

KESSELRING ADMITS PART IN BOMBINGS

By The Associated Press

NUERNBERG, GERMANY, March 12—Field Marshal Albert Kesselring told the international military tribunal today that he was at least partly responsible for bombing of Warsaw, Rotterdam and Coventry.

The militarist, who opposed American troops in Italy and France, testified for Herman Goering, one of 22 Nazis on trial as war criminals.

"The bombs on Coventry landed perfectly," Kesselring said. "Sometimes a whole area must be considered as a target."

He said the British city was a "technical and industrial center" and that German planners called it a "little Essen."

"I am very sorry as a soldier for 22 years if the attack on Rotterdam was not what it should have been," he testified, explaining he had heard the attack was made during armistice negotiations. "But if this was the case—and I never was able to find out—it should be counted as an accident of war."

The marshal said he commanded the air attack on Warsaw. He described the Polish capital as a fortress and asserted that "everything possible was done to hit only military targets."

Paul Koerner, intimate of Hermann Goering since 1926, told the tribunal the former reichsmarshal intervened against the Nazi party purge 12 years ago and that he created concentration camps only to "re-educate" enemies of the state.

Koerner was Goering's secretary for many years and once was secretary of state for Prussia. He testified that when the purge was carried out in 1934 Goering "went at once to the fuehrer and told him innocent people were being killed and it must be stopped and it was."

He said Goering founded the concentration camps, but turned them over to Heinrich Himmler in 1934 on Hitler's orders. Goering also attempted to stop a Jewish pogrom in 1938, Koerner testified.

The sound of the propeller of one ship can be heard by listening near the hull in another ship's cabin below the water line, exemplifying the transmission of sound through the sea.

Red Cross Report Set for Tonight

Workers in the 1946 Red Cross Fund Campaign will make their second report tonight at 7 o'clock at Campaign headquarters at 193 East Center street. Clarence Shockney, campaign chairman, will be in charge of the meeting and present also will be Robert T. Mason, chairman of the Marion County chapter.

All heads of teams and divisions are asked to be present for the meeting. At the first report meeting last Thursday night the volunteer workers turned in $16,942.68 of Marion county's quota of $38,300. The national goal is one-hundred million dollars to carry on the work of the organization during the coming year.

Wyandot Co. Jury Acquits Currier

Special to The Star

UPPER SANDUSKY, March 12—A not guilty verdict was returned by a Wyandot county jury late Monday in the seven-day fraud trial of George T. Currier of Columbus.

The verdict came after three hours of deliberation by the jury, during which time jurors were divided seven to five in favor of a not guilty verdict. The unanimous not guilty vote came shortly before 5 p. m. The verdict was read to the court by Carl C. Miller of Upper Sandusky jury foreman, and covered all 20 counts on which the Columbus man was indicted.

Pleas of attorneys were heard Monday morning and the charge to the jury was given immediately after the noon recess. Attorneys for Currier were A. K. Hall of Upper Sandusky and John and Charles Conner of Columbus. Wyandot County Prosecutor Russell C. Price and Attorneys Nicholas J. Kiraly and Russell Sutton from the state department of commerce represented the state. Judge Clarence U. Ahl of Bucyrus was on the bench.

Currier was charged with giving false information to Wyandot county residents when he attempted to buy stock from them in the Fidelity Building Loan and Savings Co., representing the stock at what was claimed to be less than it true value.

SUGAR SHORTAGE DUE TO LINGER, SAYS U. S.

By The Associated Press

WASHINGTON, March 12—Sugar will remain scarce the rest of this year and perhaps into 1947, says the agriculture department.

It stressed this despite some prospective ration increases announced by the OPA yesterday. These apply to such users as bakers and hotels and restaurants and not to housewives.

Here's the sugar ration situation:

Home canning—Spare Stamp Nine in Ration Book Four and in new sugar books became valid yesterday for five pounds. OPA expects to validate another home canning coupon in June or July for perhaps another five pounds.

Regular household allotment—Sugar Stamp 39 in Book Four is good for five pounds through April 30. OPA says it has no plans at this time to hike the current ration—five pounds a person every four months.

Industrial—Such users as bakers, canners of fruits and vegetables pharmaceutical producers and will get a 10 per cent increase for April-June quarter.

Institutional—Hotels and restaurants may get an increase in May, says OPA.

Ohio WCTU Chief Hits Wheat Order

By The Associated Press

COLUMBUS, O., March 12—The recent presidential ban on use of wheat for white bread and restrictions on grain for beverage alcohol "discriminated" against the nation's millers in favor of the liquor industry, Miss Mary B. Ervin, president of the Ohio Woman's Christian Temperance Union, asserted today.

Miss Ervin pointed out to 300 delegates at the organization's annual three-day executive meeting the "discrimination" was contained in the order "which restricts the amount of wheat millers may keep on hand but places no such restriction on brewers and distillers."

Legion Group Votes Gift to Red Cross

When the Ladies' auxiliary to Bird-McGinnis Post No. 162, American Legion, met Monday night, $10 was voted for the Red Cross. The meeting was held in the Legion Dugout. One application for membership was balloted on and during a social hour high award in coolie went to Mrs. Mary Laubner. Mrs. Anna Ralston and Mrs. Lydia Ralston were in charge of the social period, and lunch in keeping with St. Patrick's day was served.

Radio, Clock Stolen in Home Burglary

Mrs. Florence Brady of 539 South Main street reported to police that a combination radio set valued at $135 and an electric clock valued at $45 were stolen from her home last night. Entrance was gained by breaking a window.

JOAN CROWFORD SUES

By The Associated Press

LOS ANGELES, March 12—Actress Joan Crawford, winner of the Motion Picture Academy award for the best feminine portrayal in pictures during 1945, has prepared to sue her estranged husband for divorce, her attorney, Neil S. McCarthy, announces. McCarthy said Actor Philip Terry, who left their home several weeks ago, will be charged with general cruelty.

Despite Specialist's Predictions Doomed Detroit Girl Celebrates Fourth Birthday

By The Associated Press

DETROIT, March 12—Stubborn little Sandra Dildine, the golden girl of St. Clair shores, Monday celebrated her fourth birthday anniversary—the one death tried so hard to cancel.

Twice in recent weeks the blonde, blue-eyed child, termed incurably ill by doctors, has had "spells" that her parents feared would be fatal. She suffers from a malignant tumor.

Her parents credit her stubbornness and her great anticipation of the birthday anniversary with pulling her through.

"She's always been a stubborn child," her mother, Irene, said. "I just pray she'll be too stubborn to die."

The youngster, nicknamed "Sandy," began the big day in a high mood that was sustained by gifts from widely scattered sections of the country.

In the place of honor beside the same window where Sandy spends most of her time looking at the birds on the lawn hung a caged canary. The gift that delighted her most.

Sandy, whose blonde hair is as golden as the canary, has been caged herself in the little white frame cottage where she was brought from the hospital Jan. 28 after specialists said she hadn't long to live.

At the party which included neighborhood children Sandy looked pale and tired but her beauty, remarkable in its radiance, is unmarred by her long illness.

The long day wore on the child and in late afternoon the soft blonde head with its pink hair ribbon sank back against the white pillow in the tiny wheelchair.

The chocolate birthday ice cream melted and the candles sputtered out on the white-iced cake.

"Mommy," the child begged in a whisper, "hold my hand."

Mrs. Dildine moved to her side.

A very sick little girl's fourth—and perhaps her last—birthday party was at an end.

Russians Explain Troops' Stopover

By The Associated Press

CHUNGKING, March 12—Russian troops evacuating Mukden have insufficient transportation facilities to move directly to Soviet territory, consequently must make stopovers at Changchun, the Soviet chief of staff officially informed Chinese officials today.

A growing Chinese government force was reported in control of Mukden as the retiring Russians yielded barracks and factories of that Manchurian industrial center.

The Chinese government meantime prepared to dispatch truce teams to halt Chinese factional strife.

The Soviet officer reportedly said that inasmuch as the Chinese government had announced its readiness to take over garrison duties in Mukden, Soviet forces had begun to leave the city.

City Contract for Township Fire Protection Authorized

Ordinance Adopted by Council; Grade Crossing Proposal Presented; Employe Group Asks Pay Boost.

An ordinance authorizing the safety-service director to enter into a contract with Marion township trustees to furnish fire protection outside the city limits, a request from employes of the sewage treatment works for an increase in salaries and a recommendation from the Marion Chamber of Commerce that a meeting to discuss feasibility of a project to eliminate grade crossings be held between representatives of the four railroads passing through the city, and city officials, were major problems of business which came before city council Monday night.

Council also acted on legislation for improvement of Fahey street and York street from Pies avenue to Waterloo street for construction of sanitary and storm water sewers, heard a request from residents of Universal avenue for installation of street lights and one from residents of Court street asking that the street be opened to two-way traffic instead of a one-way street, and authorized the city solicitor to pay a claim of Mayetta Anselment in the sum of $750 and costs in settlement for injuries and medical care resulting from a fall on a sidewalk on Reed avenue April 3, 1943.

Fire Ordinance Approved

Following considerable discussion of the proposed contract with the Marion township trustees to provide fire protection outside the city limits, the ordinance was approved with but one objection, and the service director was authorized to meet with the trustees to discuss the proposed legislation.

The contract provides for furnishing fire protection to the township and inhabitants for a period of 90 days, the township to pay the city $75 for each succeeding hour or fraction thereof of service to be computed from the time the equipment leaves the corporate limits of the city until its return, such charges to be paid within 30 days from date of bill rendered. Also that in no case shall the city of Marion be liable for damages to the township or inhabitants because of failure to answer any call or for any inadequacy of equipment, negligent operation of appartus, failure to extinguish any fire, or for any cause whatsoever growing out of such agreement and such use of the fire equipment and personnel of the city. The ordinance provides that either party may cancel the contract any time before the expiration of the 90 days by filing a 30-day written notice of its intention. The 90-day period, it was brought out, will proivde ample time for the board of trustees to arrange for permanent fire protection and make such other plans as will meet their needs.

Objection Stated

Clarence H. Sanden, councilman from the sixth ward cast the only dissenting vote, giving as his objection the fact that it would raise the insurance rates in the city. Capt. O. C. Stafford and R. M. Miller from the city fire department were present. Capt. Stafford pointed out that under the present setup firemen upon leaving the city to answer a fire call, are without any protection and the city could be held responsible for any equipment or damages. He also called attention to the fact that both the county children's home and the home for the aged are public institutions without adequate fire protection. He replied in the affirmative when asked if he would advise such a contract and expressed the opinion the trustees would be "pretty lucky" to get such service.

The request of the employes of the sewage treatment works cited the increased cost of living as the necessity for higher wages. Incorporated in a letter also was a request that the present six-day vacation be extended to 14 days and that a sick-leave for the same period be granted. The request was referred to the finance committee and the city safety-service director.

Grade Crossing Proposal

In presenting the recommendation of the chamber of commerce that some steps be taken looking to the elimination of railroad grade crossing in the city, Louis Michel, secretary, explained in a letter that the Chamber's grade crossing elimination committee had studied the problem in the city for the last year at the request of many citizens and groups. In the communication it was pointed out that hours of time are lost by industrial workers being held up at crossings, school children are hampered by blocked crossings and that the present crossings are potential death traps to pedestrians and motorists. It also cited that railroads themselves would benefit from the program in reduction of maintenance and blocking of crossings at the Union station crossover. Partial elimination of grade crossing would be a major undertaking, involving large scale financing and the cooperation of railroads, federal state and county agencies together with city officials, the letter stated.

The letter recommended that the city council authorize the mayor and service director to call a meeting of representatives of the four railroads and other interested parties to discuss what plans might be formulated and to determine to what degree other interested parties might be expcted to participate. The matter was placed in the hands of the finance and ways and means committee to arrange a meeting to be attended also by the mayor.

A letter of acceptance of the recently granted franchise from the Marion Rapid Transit Co. was accompanied by notification of the revised bus schedule whereby the Center and Davids street line is operating on a 15-minute headway, a re-routement of this line in Oakland Heights, 30-minute service on Mt. Vernon avenue and other schedule changes making for the convenience of patrons.

Letter on Recreation Program

A letter from Robert T. Mason, president of the Marion recreation commission, brought the matter of the financing of a Marion city recreation program for 1946 before council. A report of the finance committee showed no funds are available for the project, which raised the question of how such projects were financed in other cities. It was brought out in the discussion that cities in the vicinity of Marion finance such projects through small levies voted by the people and that the same policy could be followed here should it be the wish of the citizens. No action was taken.

Council approved ordinances for the Fahey and York streets improvements, and the petition of the Universal avenue residents for lights was referred to the utilities committee. The request for the opening of Court street to two-way traffic again was referred to the street and alley committee and the police department, and a petition for a curb and gutter on Wood street was referred to the street and alley committee and the service department. Other legislation included approval of a resolution placing the $800,000 derived from the recent sale of the Marion airport and sewer bonds on deposit in the National City Bank for a six-month period at a rate of one-half of one per cent interest and authorization of the safety-service director to contract and purchase supplies and materials needed in his department.

Police Report Filed

The report of the police department for February showed that 132 arrests had been made, 290 calls answered, 767 complaints handled, 87 meals served, three automobiles valued at $2,500 stolen, seven bicycles valued at $155 stolen, four automobiles valued at $2,900 recovered and four bicycles valued at $90 recovered.

HOUSE LABOR BILL JUNKED BY SENATE

By The Associated Press

WASHINTON, March 12—A new labor disputes measure emerged from a special senate drafting committee today bearing only coincidental resemblance to the Case bill passed by the house.

Senator Ellender (D-La), one of seven who helped write the substitute, told newsmen the main idea is to shift most strike settlement work from the labor department to a new "independent federal mediation board."

"This is not a slap at the secretary of labor nor at his department," Ellender said, adding that the department was created chiefly to protect labor's interests.

Although noting that the senate group discarded most major provisions of the house bill sponsored by Rep. Case (R-SD), Ellender said he believed the senate plan would encourage industrial peace.

Chairman Murray (D-Mont) of the labor committee, who headed the drafting group, previously termed the Case bill "drastic."

The substitute measure now must go to the full labor committee for possible changes before it reaches the senate, where its fate and form are uncertain.

Keystone of the new bill is the proposed federal mediation board which would be composed of five $12,000 a year members appointed by the President subject to senate confirmation.

Sycamore Church Has Special Union Service

Special to The Star

SYCAMORE — World Day of Prayer was observed with a union church service at the Evangelical Reformed church Friday. The president of the Women's Guild of the church, Mrs. Ralph Bacon, was assisted by Mrs. Arden Smith, Mrs. Ralph Babcock, Mrs. Lloyd Walters, and Mrs. Lloyd Keller.

Mrs. Delight Lee, accompanied by Mrs. Vaughan Stuckey, sang a solo; Clarabel Riedel and Phyllis Riedel sang a duet with Mrs. Frank Harper at the piano. Also assisting were Betsy Caves, Diane Davis and Hazel Hannum.

Rev. C. F. Brouse gave the benediction.

GRANGE HEARS SPEAKERS

Eight applications for membership were received and voted on at a meeting of Bethlehem Grange Wedesday night in the Grange hall south of Marion. A movie on "Frozen Foods" was shown by Miss Ruth Kleinmaier, and H. H. Beringer gave a talk on soil conservation.

The Grange voted to send the lecturer, Miss Esther Augenstein, to the leturers' short course March 18-22 in Columbus. At the next meeting, which will be March 22 instead of March 20, Floyd Barrett and Cletus Uhl will be in charge of the program.

BROWNS GET TOUGH

By The Associated Press

ANAHEIM, Calif., March 12—General Manager Bill Dewitt said yesterday he was sending a new St. Louis Browns contract to holdout Vernon Stephens. He said the disgruntled shortstop was not for sale and "he will play with the Browns or remain idle in so far as organized baseball is concerned."

BEWILDERED WAR BRIDE—Looking at a picture of Charles A. Beckham are his wife, Edna, and daughter, Margaret Anne, who arrived in Los Angeles with other Australian war brides, but were not met at the station. Beckham, formerly of the Navy, met them later to explain the marriage was "a mistake." My feelings for her just changed, that's all." He said he wired her not to come, but the boat had already left.

STRIKES

(Continued from Page 1)

demands of 30 per cent were met.

Transportation tieups continued in Louisville, Ky., and Gary, Ind., with strikes of street car and bus workers.

The country's continuing labor disputes kept idle about 757,000.

U. S. Leader Heads Timken Parley

By The Associated Press

CANTON, O., March 12—Today's strike settlement negotiations between the Timken Roller Bearing Co. and the CIO United Steelworkers were to be the second session in which the union delegation was headed by a national officer, Secretary-Treasurer David J. McDonald.

McDonald's first participation in the discussions was last Friday. The strike, which began Jan. 21, has idled about 14,000 employes in six Ohio plants.

The company reported yesterday that it had issued $25 interest-free loans to approximately 2,500 employes.

Leaders of a back-to-work movement at the company's Columbus plant, which employs about 4,600, said they planned no further attempts to enter the plant "until we see what the court does."

A hearing is set for Wednesday in Columbus, in connection with an injunction issued last week, limiting the number of pickets to seven at each of five gates. Union officials have filed a motion to dissolve the injunction, and the company has filed a complaint claiming the union violated it by massing "at least 500 pickets at the Columbus plant yesterday, when about 250 employes attempted without success to enter. It was the second attempt to enter the plant. There was no violence.

Strikers' Dinner Aids Relief Fund

By The Associated Press

CLEVELAND, March 12—There was $900 in a CIO Electrical Worker union fund for aiding families of strikers today, as the result of a "strike kitchen dinner."

Part of the money came from the contributions of 92 guests, who ate beef stew, cole slaw and coffee served at the union headquarters by wives of men on strike at local plants of General Electric and Westinghouse. The menu was described as a typical meal now being served in strikers' homes.

The rest of the fund came from the auctioning of paintings contributing by Rockwell Kent and a number of local artists.

The dinner was sponsored by the Cleveland Citizens committee on fair wages and prices. Dr. D. R. Sharpe, secretary of the Cleveland Baptist federation, was chairman of the committee in charge of the dinner, and presided. The proceeds are to be used for aiding needy strikers' families who are not being reached by ordinary relief sources.

Fourth of Unions OK Rubber Pact

By The Associated Press

AKRON, O., March 12—One-fourth of the CIO-United Rubber Workers of America local unions have ratified the wage agreement reached recently by officials of the "big four" rubber companies and the union and calling for an 18½ cent hour wage boost for production and maintenance workers.

L. S. Buckmaster, international president of the union, reported yesterday 10 of the 41 locals had okayed the agreement, including the Goodyear Tire & Rubber Co. group at St. Marys, O.

Five-Cent Offer Brings Strike Vote

By The Associated Press

AKRON, O., March 12—Some 3,000 members of the AFL Match Workers council will participate in a strike vote Sunday, due to collapse of wage negotiations between the union and three match companies, National Union President F. B. Gearhart reported today.

Gearhart said negotiations be-

Strike Picture

By The Associated Press

Continuing labor disputes keep idle approximately 757,000.

Major developments:

Coal—John L. Lewis, president of AFL United Mine Workers, meets with union policy committee for last review of demands to be presented bituminous coal operators in contract negotiations; more pay, shorter work week, unionization of supervisory workers and participation royalty on each ton of coal mined believed among demands.

Automotive—CIO United Auto Workers union leaders continue conferences in 112-day General Motors strike, declare their unity to reach settlement; union's national Ford council objects to certain clauses in recently approved contract with Ford Motor Co.

Railroads—Presidential fact-finding board opens hearings on wages and rules dispute between two operating brotherhoods and most of the nation's rail lines, as strike threat of 293,000 members postponed for at least 30 days.

AIR FORCE SETS UP 3 COMBAT GROUPS

By The Associated Press

WASHINGTON, March 12—The Army Air Forces were streamlined today into three major combat commands by General Carl Spaatz, who declared the atomic bomb made it "almost certain any future war would begin with air action.

The new chief of the national air arm announced the following combat groupings for the post war setup:

The strategic air command composed of long range striking forces, the air defense command responsible for the aerial protection of the continental United States, and the tactical air command, which will cooperate with surface forces.

These will be supplemented by five supporting commands, air by air national guard and air reserve forces. A revised "air university" system of schooling already has been put into effect.

Spaatz asserted in a statement that "the best insurance against unannounced aerial attack is an adequate, alert air force-in-being."

Spaatz called for "full partner and co-equal status with the ground and naval service," under a single department of national defense

Marysville Youth Admits Delinquency

Special to The Star

MARYSVILLE, March 12—Bernard Tillman, 20, of this city pleaded guilty before Juvenile Judge John W. Dailey to a charge of contributing to the delinquency of a 14-year-old Union county girl when he was arraigned Monday.

Prosecutor W. L. Coleman said another young man from this city is involved but is still at large.

Tillman pleaded guilty to taking the girl to Portsmouth and then across the Ohio river into Kentucky.

Judge Dailey ordered Tillman remanded to the county jail and said sentence would be pronounced later.

M. F. BROWN FUNERAL

Funeral services for Michael F. Brown of 301 Latourette street will be conducted Thursday morning in St. Patrick Catholic church in Toledo, and burial will be in Calvary cemetery at Toledo. Mr. Brown died Sunday in the home of a nephew, William J. Brown of 301 Latourette street where he lived. The body was taken today from the M. H. Gruder and Sons funeral home on West Center street to the Murphy mortuary at Toledo where funeral arrangements were made.

tween the matchworkers company demanding a 25-cent hourly wage increase, and company representatives broke down yesterday because of "the ridiculously small offer of a five-cent hourly increase" made by the firms.

Gilead; Mrs. Lonnie Hill and baby of Mt. Gilead; Mrs. James Everly of Route 1, Bellevue; Reuben Heltzan of West Church street; Rose Emmenegger of North Boston street; Wayne Guinup of East Church street.

In Loving Memory

★Of our dear father, George E. Loreno Sr., who died eight years ago March 12, 1938.

Eight years ago today, dear dad.
The Master called you home,
He closed your eyes in peaceful sleep,
Your work on earth was done.
We long to see your face again.
Your smile so warm and true,
To clasp your hand and kiss your cheek
And have a chat with you.
But we know you're resting now in peace
With our Savior home on high.
So we will loyal try to be
And met you by and by.

Mrs. Marie Loreno
and Family.

THEIR TALK WAS "OFF THE RECORD"—Secretary of State James F. Byrnes and Britain's former prime minister, Winston Churchill, shake hands following their hour-long talk behind closed doors at the state department in Washington.

Mackenzies Leave Switzerland with Big Pat on Back

by DEWITT MACKENZIE
AP World Traveler

BERN, March 12—This is Au Revoir, Switzerland, for we must get ahead with our job of globe-trotting.

We've had a grand time, for you Swiss have been mighty fine to us and we are appreciative. Our feelings about you were well expressed by a Yankee sergeant with whom we were chatting last night—one of the 200,000 American soldiers who've been fortunate enough to get leave for a brief tour of Alpland. When we asked him how he liked it here, he raised his right hand and with shining eyes declared:

DewittMackenzie

"It's 100 per cent—hospitality, fine people, good food, wonderful scenery. What a change from Germany!"

Well, that's the way we feel about you, too, Switzerland. You're 100 per cent.

There are many things we like about your glorious little state perched among the Alps, but I think we must place first your sturdy character and fine principals. It's good to meet folk who think right and live right. I guess maybe it would be difficult to have mean thoughts up here on the peaks so close to heaven.

Old and New

You're modern and yet live in a setting of days gone by—combining the old with the new so charmingly that the blend is perfect.

Mrs. Mack and I have spent hours among historic buildings which have grown gray from the centuries. We've been fascinated by that huge, 300-year-old clock in the stone tower of Bern's ancient city gate—still faithfully recording the seconds, minutes, hours, days and months, while the life-size figure of a man strikes the hours with mighty swing of his hammer.

And I don't know how many times we've stopped to look at the quaint statue of the fat ogre about to swallow a baby, with other squirming youngsters in a bag ready to follow. They say mothers of days long past used to warn naughty children that the ogre would get them. I told this to Mrs. Mack but she only sniffed and said she didn't believe in ogres.

Some folk are inclined to brush aside traditions and heirlooms as too much out of date to be useful. But our observation is that these links with the past are part of the fiber of a nation.

Scenery Is Wonderful

We love your beautiful valleys with their lakes and streams and tidy farms—picture-book homesteads which have been handed down from father to son for generations. We've thrilled with the grandeur of your Alps. Sure, Mrs. Mack and I went up just under the peak of the towering Jungfrau among the clouds where the breath comes short and the heart hammers from the altitude. There was a fierce blizzard screaming across the height — a fearsome sight and the bearer of death to any who got caught in it.

We went to the heart of the great glacier on which men have carved tunnels and marvelous caverns.

Yes, you have a wonderful country for sight-seeing, but even more impressive is the spirit of cordial friendliness everywhere. Should a visitor pause at a street corner to get his bearings, immediately he will have an offer of assistance. It was a Swiss—a stranger—who bought Mrs. Mack and me breakfast at a frontier railway station when we had no Swiss francs.

We've had a memorable experience here, but we must be going. It's so long for now, Switzerland. Good luck, we'll be seeing you.

JACKSON DAY DINNER TICKET SALE LARGE

Capacity Attendance Expected at Democratic Event.

Committees in charge of ticket sales for the Jackson Day dinner, to be held Thursday evening at Hotel Harding, predicted today a sellout by Thursday.

At a committee meeting last night in Democratic headquarters, it was estimated that about 226 tickets already had been sold. They were unable to determine the exact ticket sale because many of the tickets still were out.

The Jackson Day dinner is sponsored by the Marion County Democratic club. Principal speaker will be Estes Kefauver, Democratic congressman from Tennessee. Also scheduled to speak is Robert Moulton of Galion, state director of commerce. Among other officials to be present will be Albert Horstman of Dayton, Democratic national committeeman from Ohio.

Invitations have been sent to all state, district and county Democratic candidates, and 15 of these already have signified they will be present.

Among other features of the program will be group singing led by Loran McNell of Prospect who will also sing a group of solos, and dinner music by an orchestra.

Grover C. Snyder, chairman of the committee in charge, will preside. Other members of the committee include Mrs. Snyder, Mr. and Mrs. Harry Armstrong of LaRue, Arthur Green of Prospect and Ross McGinnis of Marion. Mrs. Lewis Uhl of Marion is in charge of decorations.

EX-NAVY CHAPLAIN LIONS CLUB SPEAKER

Rev. J. B. Holloway Talks on War Experiences.

Rev. J. B. Holloway, pastor of Trinity Baptist church, spoke on his work as chaplain in the U. S. Navy, at the weekly luncheon meeting of the Lions club Monday noon at Hotel Harding.

He explained that some of his duties consisted of personal interviews, hospital visits, lectures to officers along educational lines, assisting in the library, assisting the men in their correspondence courses, looking after recreational time, assisting in welfare work, and many other things to aid the servicemen.

Official duties of the chaplain were, Rev. Holloway explained, to have services on Sunday, administer Holy Communion and baptize those who desired it, and to officiate at burial of the sailors and to notify those at home. He also acted as editor-in-chief of the weekly publication at the camp and also looked after the publishing of a year book for the camp.

Guests were Lloyd Rehl, W. B. Henney and William W. Luse, seaman 2/c in the U. S. Navy, home on leave, all from Marion.

Mrs. Jesse Ekleberry Dies at Sycamore

Special to The Star

SYCAMORE, March 12—Mrs. Lulia Ekleberry, 64, wife of Jesse Ekleberry of Sycamore, died in their home at 8:40 last night following an illness of a year. Born Sept. 6, 1881 at Amherst, O., she was a daughter of Mr. and Mrs. Draydon Broughton. Feb. 9, 1902, she married Mr. Ekleberry. Surviving with her husband are four sons and a daughter, Roscoe, Alvin, Kenneth and Lawrence Ekleberry, and Mrs. Marie Althouse, all of Sycamore, six grandchildren, a brother, Frank Broughton of Greenwich, O., and a sister, Mrs. Sarah Childers of Albion, Mich. Funeral services will be conducted Thursday at 2 p. m. in Moore's funeral home here by Rev. S. M. Firestone. Burial was in Pleasant View cemetery at Sycamore.

Typographical Union Names Three Delegates

David Metzger, Fred P. Haas and George Sorrells were elected delegates to attend the semi-annual session of the Ohio Typographical conference to be held April 27-28 in Akron, when Marion Typographical Union No. 675 met last night at The Star building.

The apprentice standards, as outlined by the state department of labor in conjunction with the federal bureau of apprentice training, were approved by the union and the management of The Star. A letter from Thomas Maher, formerly employed at The Star and now a resident of the Union Printers Home at Colorado Springs, Colo., was read by Mr. Haas.

MARION GROUP HEARS TOOL MANUFACTURER

Sidney Man Addresses Society of Engineers.

Forty-five members and guests of the Marion chapter of the Ohio Society of Professional Engineers heard a talk Monday evening by Jerome A. Raterman of Sidney, O., in the Marion club rooms at the Harding Hotel following a dinner at 6:30.

Mr. Raterman, executive vice president and treasurer of the Monarch Machine Tool Co. at Sidney, discussed "Machine Tools — Man's Seven League Boots." Accompanying Mr. Raterman here was Arthur Killian, who presented motion pictures showing the production of plastic and glass moulds used in making ash trays. These were made on a lathe manufactured by the Monarch Machine Tool Co. Ash trays made from these moulds were presented to all of those present. Following Mr. Raterman's talk, the meeting was opened for questions and discussion.

Except for time out to serve in World War I, Mr. Raterman has been associated with the machine tool industry since 1918, when he took his first job with the Sidney Tool Co. He declared that American industry has never shown its productive measures more than in supplying weapons for victory in the two World Wars.

During the meeting of the chapter a report on the state convention of the Ohio Society of Professional Engineers which was held in Akron Feb. 14-15 was given. Guests were present from the Universal Cooler Corp., Floyd G. Browne and Associates, the Marion Steam Shovel Co., and Hyraulic Press and Manufacturing Co. of Mt. Gilead.

DAIRY TESTING GROUP FORMED

Permanent Organization Set Up Here; To Seek 100 Members in County.

A permanent dairy cattle testing association, known as the Marion Dairy Service Cooperative, was established last night when recently elected directors of the association met in the office of County Agricultural Agent Arthur Smith, set up a constitution, made plans for a membership drive, and discussed the employment of a dairy cattle tester for Marion county.

The new constitution calls for approximately 100 members in the cooperative and sets up two types of dairy testing programs. The first program, known as the dairy herd improvement program, calls for butterfat content tests for each cow to be made personally by the dairy tester. The second program, known as the owner-sampler program, will permit the dairyman to take his own milk samples and have them sent to the tester who will make the tests.

Directors of the cooperative now are concerned with their membership drive and with the employment of a dairy tester. Later on the cooperative may set up a program of artificial breeding.

Officers of the cooperative, elected at last night's meeting are Newell Davids of Prospect, president; Harold Patrick of Pleasant township, vice president; LeRoy Shroats of Green Camp, secretary and Robert Denzer of Waldo, treasurer.

CONSTIPATION ENDED WITHOUT DRUGS

Millions Turn to Famous Cereal for Lasting Relief!

You, too, may get lasting relief if you suffer from constipation due to lack of bulk in the diet. Do as millions do, eat a daily dish of crisp, delicious KELLOGG'S *ALL-BRAN*, and drink plenty of water. Do this every day, and you may never have to take another laxative as long as you live!

ALL-BRAN'S magic works by providing gentle-acting bulk utilized in the colon to further normal, easy elimination. It's not a purgative. It's a highly nutritious regulating *food* . . .

More Nutritious than Whole Wheat

Because *ALL-BRAN* is made of the *vital outer layers* of wheat, in which whole-wheat protective food elements are *concentrated*. One ounce provides over 1/3 your daily iron need—to help make good, red blood. Calcium and phosphorus—to help build bones and teeth. Whole-grain vitamins—to help guard against deficiencies. Protein—to help build body tissue essential for growth.

Eat *ALL-BRAN* every day. Get this delicious cereal at your grocer's. Made by Kellogg's at Battle Creek and Omaha.
